WYNCOTE, PENNSYLVANIA

The Architecture of an Education

Symmetry in the Greek spirit; a curriculum balancing poetry with wood-working, and fine art with factoring.

Roman concern for a useful education; the teaching of grammar and logic.

The Gothic search for spiritual truth; moral quest within the humanities.

Arts and sciences uniting to create the Renaissance Man; academics and extracurricular activities uniting to create a busy student life.

Elaborate decoration amidst Victorian propriety; individual electives amidst a formal core of study.

Modern flexibility in "the free society"; opportunity for honors courses and independent work.

A vast dome supported by six independent, yet mutually contributing, columns; an educational structure supported by the pillars of six ages.

Constructing a building is a highly organized and complex process, involving purpose, design, raw materials, and hard work, and yielding a finished, tangible product. There is architecture in an education, too, and though the product is intangible, the process is no less complex.

EL DELATOR portrays the architecture of an education at Cheltenham, an education based on the contributions of the past. We continue to build upon experience through new ideas, while creating a structure uniquely ours.

Search for balance

ΕΛΛΑΣ

and perfection gives structure to Greek strivings

The Greeks based their cultural lives on a quest for harmony. Just as Greek architects sought the epitome of perfection and balance in architecture, so did Greek Sophists seek this balance in education. Both the physical and mental were emphasized to insure attainment of the ideal "sound mind in a sound body."

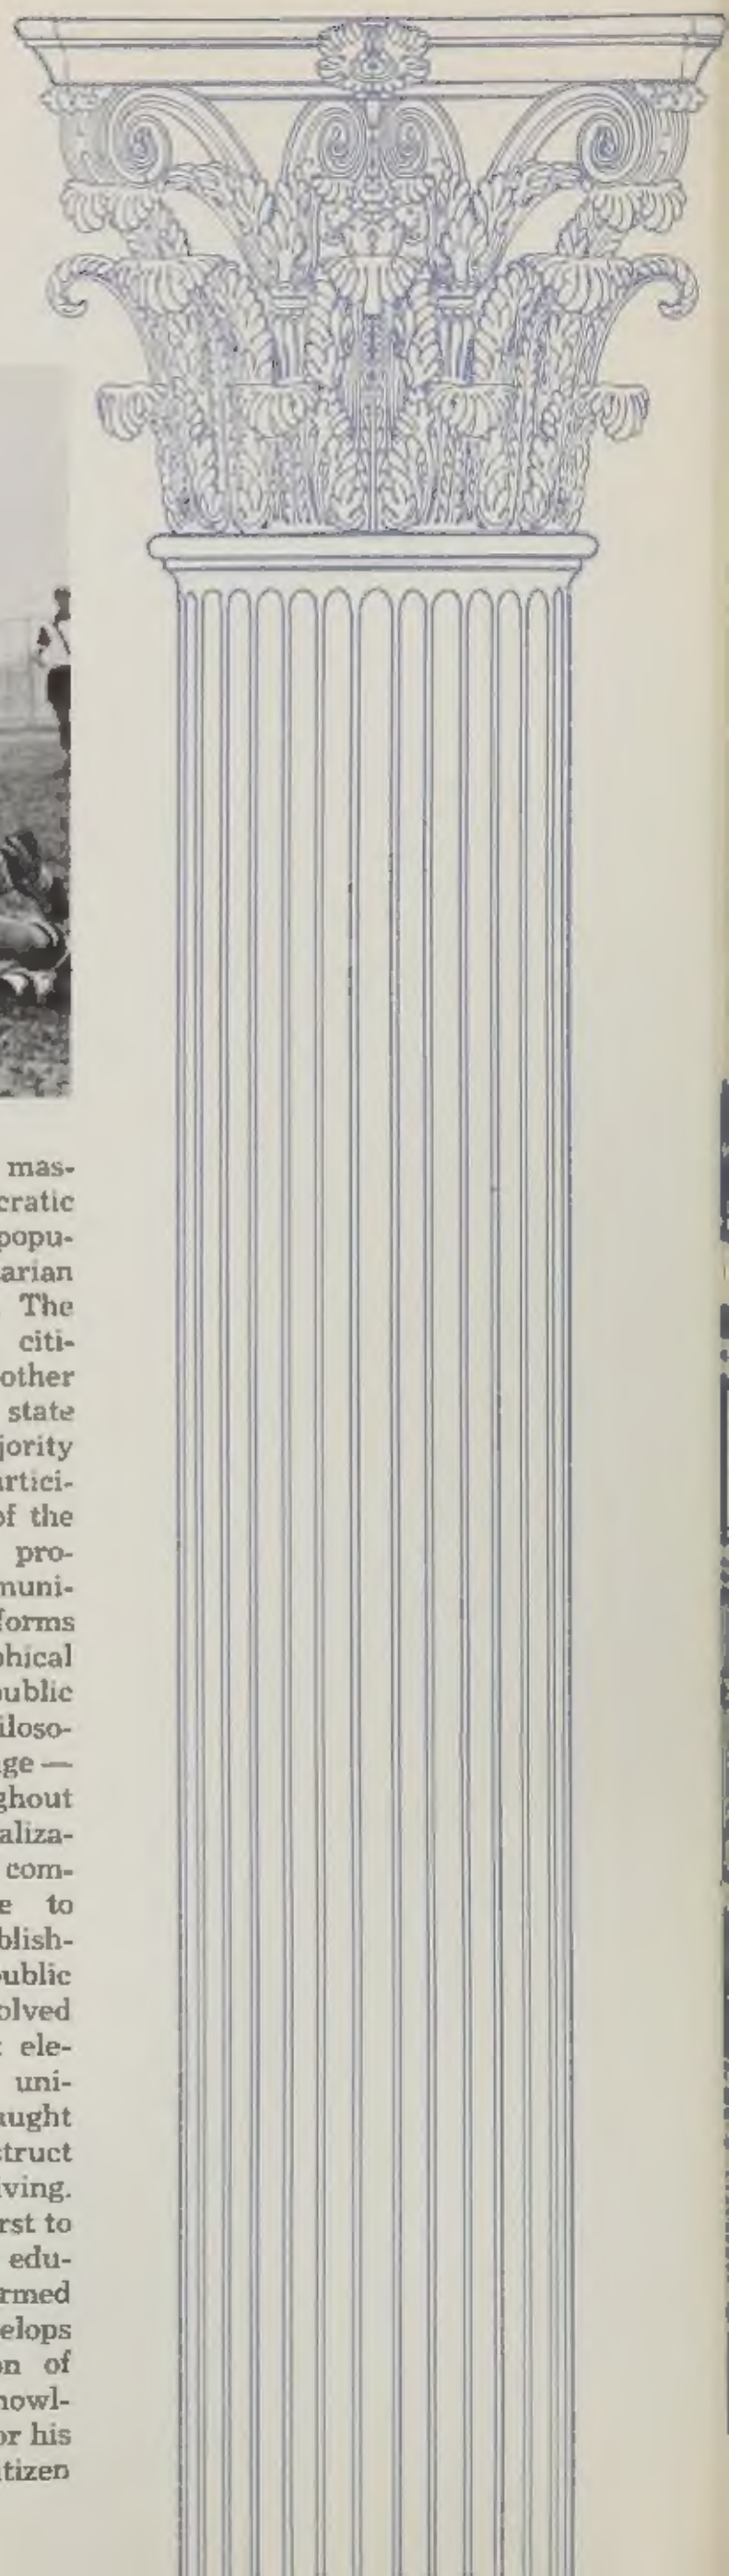

The details of Greek architecture and Greek education could vary. A Greek building was built in one of three basic styles: Doric, Ionic, or Corinthian. Each of these three modes characterizes an element of Greek education. A Doric column provided simple and sturdy support, as a Spartan education provided that city-state with sturdy soldier-citizens to support its disciplined way of life. The Ionic order emphasized delicacy and grace, as Athenian education gave rise to a citizenry vitally concerned with the fine arts. Corinthian architecture was as ornate and intricate as the detailed logical formulations of a Socrates.

The details could vary, but whether they were building temples or building minds, the Greeks never lost sight of their basic aim: to combine and balance the beautiful with the useful in a never-ending search for perfection.

The Roman Empire, a massive structure of Democratic power, contained its vast population by means of utilitarian law and martial defense. The molding of a productive citizenry arched above all other educational goals. The state which functioned by majority rule depended on the participation of every member of the populace. Thus, orations provided the means of communication for political platforms and for Roman philosophical thought. The skills of public speaking — grammar, philosophy, and foreign language — were emphasized throughout Roman education. The realization that competition and comparison added incentive to learning led to the establishment of a permanent public school system. There evolved three levels of education: elementary, secondary, and university. The Roman was taught to search his mind to construct his own philosophy of living. Roman orators were the first to theorize that a diversified education, which they termed "Liberal Arts," best develops the mind. The acquisition of such practical, general knowledge prepared the youth for his future as an active citizen of the Roman state.

Education for citizenship molds Roman society

ROMANI

Boothic

Faith gives

As the spires of a cathedral pointed toward heaven, the medieval scholar directed his thoughts to eternity, to questions which went far beyond mundane existence. The foundation of his work was faith, which he buttressed with controlled reason, contemplation, and stringent discipline. Rhetorical form and systemized rather than expanded knowledge were emphasized by the learned who endeavored to construct a moral conception of the cosmos.

The firm structure of medieval education, however, included dark crypts of superstition and mystery which were illuminated by brilliant imagination. Like jutting gargoyles, medieval learning was partly an expression of fear and wonder at the unknown evils of the universe and a desire to overcome them. Even the aims of science were magical. Alchemists sought to redeem base metals and obtain pure gold.

The monumental edifice of the cathedral expressed man's aspiration toward ultimate truth and virtue through educational discipline.

foundation to Gothic scholars' search for spiritual truth

By fully developing mind, body, and spirit, Renaissance educators sought to create a complete man. The ideal scholar was not merely a thinker, he was also an artist, a scientist, and a citizen eager to participate in society. Like the exquisite dome of Renaissance architecture, the mind and the talent of the educated man were molded into a total form characterized by proportion and beauty.

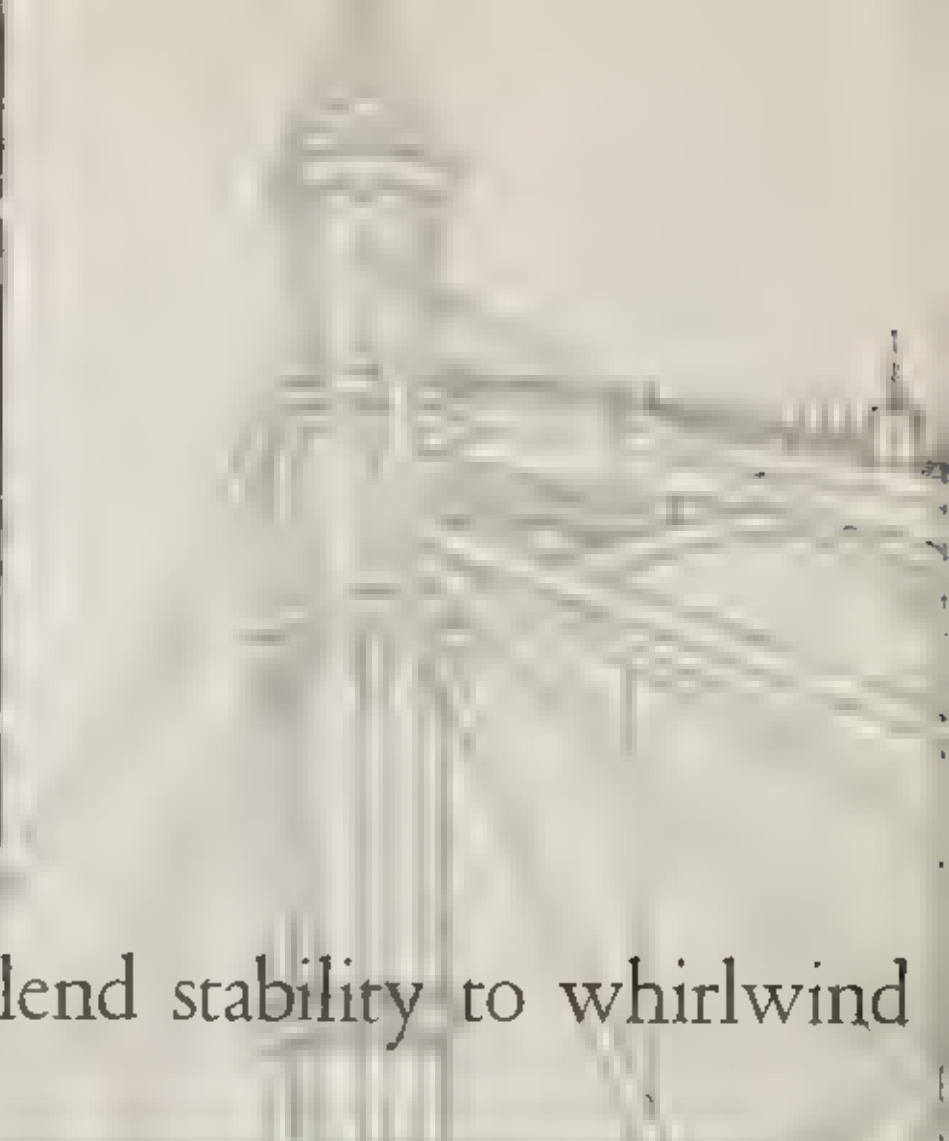

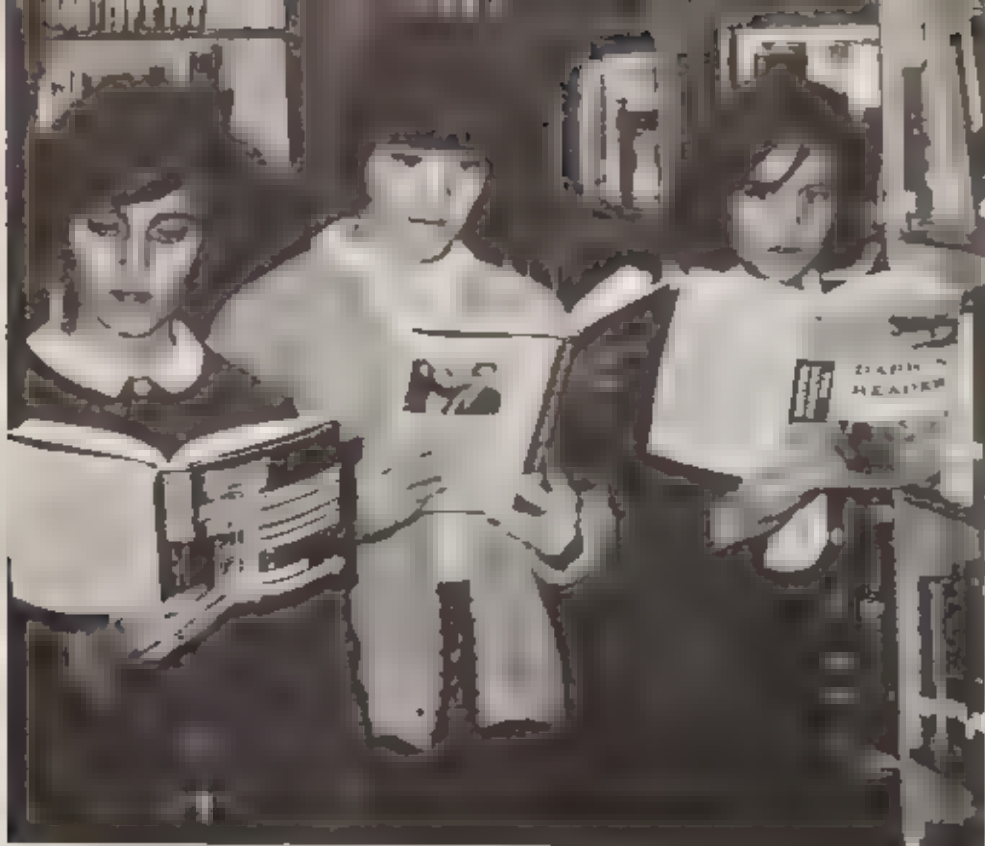

Pillars of classical learning provided a base for the dome of knowledge that ultimately produced modern man. Educators revived and developed Greek philosophy and Roman rhetoric. The concept of the sound and graceful body was granted enthusiastic interest. Awakened concern with mathematics and physical sciences led to scientific experimentation directed toward an understanding of the workings of nature. Painstaking study of ancient masterpieces shaped the art of sculpture, and painting reached a level of prominence and perfection which had never been achieved before. The Renaissance was an age of great accomplishment based on former knowledge; it was an age of discovery and rediscovery.

Renaissance society attains ideal of complete man

Renaissance

Proper traditions lend stability to whirlwind

Victorian life

The Victorian age gave birth to the progressive concepts of modern time. The era was characterized by a phenomenal rate of economic growth and consequent social change. Technological advances produced an industrial urban society. Large groups of people in factory-filled cities had easy access to the printed word as a steam-driven press made possible the wide distribution of newspapers and the creation of public libraries.

Despite, or perhaps because of, the whirlwind atmosphere of the period, Victorian man clung to many social customs. The stateliness of the Victorian home reflected the formal mood of the time. Parents and teachers taught children to be proper and dignified, to develop strength of character and a sense of teamwork and good sportsmanship.

The exterior of a Victorian building was often fancifully and extravagantly decorated with architectural gingerbread. The truly educated man was also expected to have an imposing facade embellished by impeccable manners and irreproachable public behavior. In a mechanized age of rigid iron and steel, the Victorians sought to maintain a highly formal way of life.

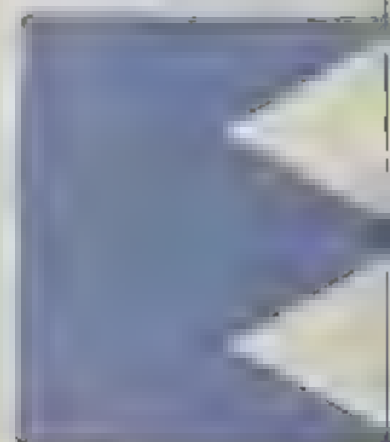

VICTORIAN

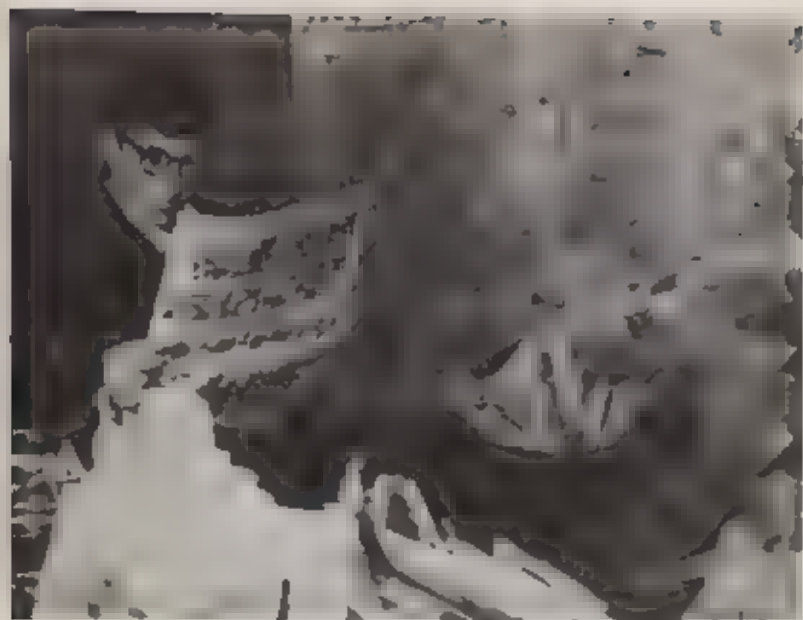

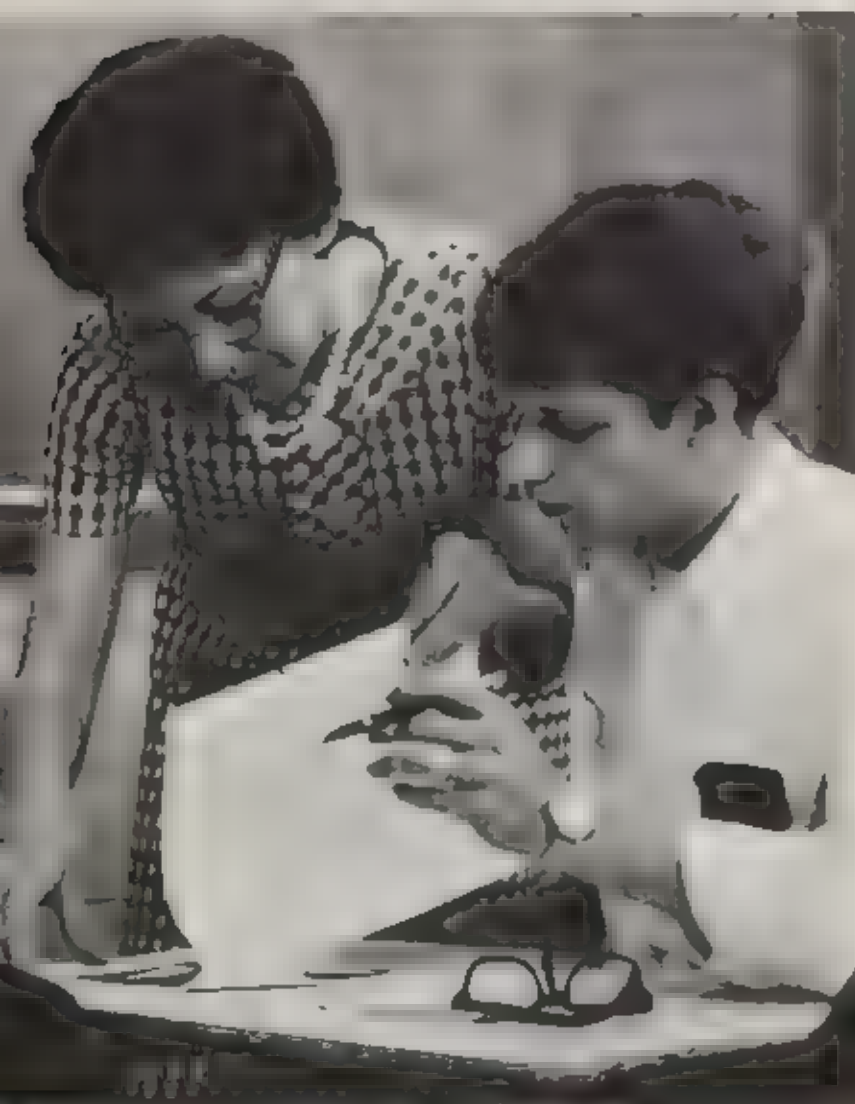

The rational framework of modern education rests upon a solid foundation of the individual student's welfare in a manner unknown to traditional institutions of learning. The adaptable curriculum enables the student to build upon years of previous learning, and to relate this knowledge to his career interests and the demands of the contemporary world. Modern education progresses in harmony with our dynamic society. It is free of the limitations imposed by the forms of antiquity. It erects compatible academic structures which are original and not imitative in form. As modern architecture abandons the wall as an agent of support, so our pragmatic educational programs dismiss the dogmas of scholastic tradition.

Today's student is offered a personalized program that enables him to proceed at his own pace. The student trained in the general discipline of logic and analysis can confront each revolutionary concept and contribute to man's expanding knowledge.

Disciplined freedom keystone of modern education

ACADEMICS

Cheltenham Township School Board seated are Dr. Ross Gill, Superintendent, Mr. George MacFarland, Vice-President, Mrs. Jean Delanty, Mr. Frank Hahn, Jr., President, Mrs. George

Lambert, Treasurer, Mr. Edwin Davis and Mr. Herbert Fox. Standing are Mr. Thomas Hyndman, Mr. Francis Markley, Mr. Maurice Wyatt, Mr. Walter Wisniewski and Mr. Henry Decker.

School board buttresses plant with new wing

EL DELATOR staff members entrap Mr. Maurice Wyatt and Mr. Frank Hahn, school board members, in a discussion of the new library addition.

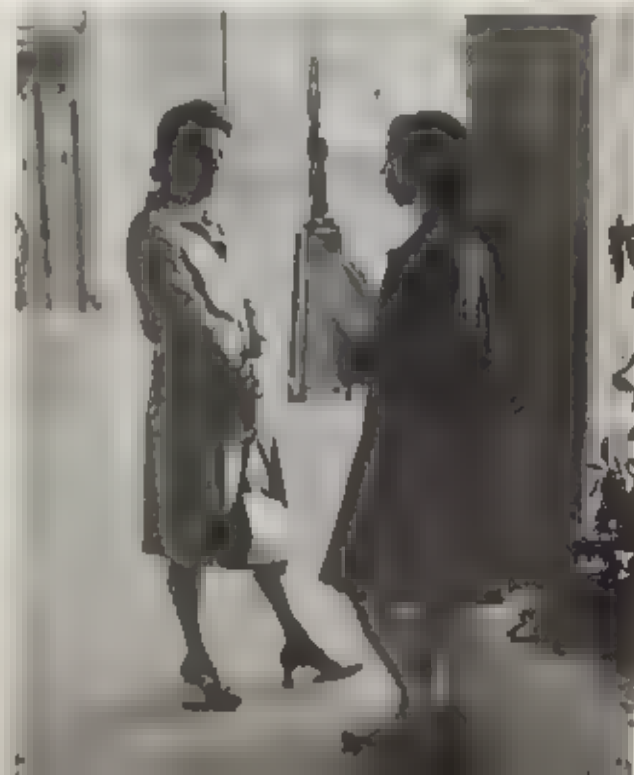

Mrs. Frances R. Link, Coordinator of Secondary Education.

Blueprints for new curricula designed by Mrs. Link

Discussions of new approaches in the teaching of English engage Mrs. Link and members of the CHS English department.

A chance meeting in the halls enables Mrs. Link to discuss the progress of team teaching with Mrs. Sherry Strong.

Dr. Gill prescribes self-reliance and self-education

Dear Senior:

An individual can learn but a small portion of all knowledge. At the same time that society is allocating astronomical amounts of money for education, the purposes of education are giving less weight to academic learning alone—it's the changes in the learner that count. Knowledge is a means to the end that educated persons may be able to adjust to the continuous and rapidly changing demands of civilization.

Your public education has provided numerous opportunities for value judgment while providing academic subject knowledge—these values and this knowledge are the tools and skills needed for continuing your self-education. As a senior you are savoring the fruits of success and achievement.

Satisfactions that result from important work are life's greatest rewards. High school graduation is such a dividend and marks completion of the first tiny step in the life-long education of a man. For your generation learning must continue as long as life itself; it

must meet the need of enabling you to change with and adjust to a society that requires successful persons to repeatedly re-direct their efforts and change basic beliefs.

As young persons, students learn to read so that later they may read to learn. Hereafter educate yourself to discriminate and evaluate all knowledge and leave doors open for change and adjustment. Few values and standards are absolute. Many persons must change goals and vocations as years pass.

Personal integrity and work habits take a man farther than knowledge alone. To be knocked down hurts, but to stay down and be counted out is fatal. Defeat may be the first step toward something better. You are on your own now—parents and teachers can only stand in the wings and be supportive.

Best wishes,
Ross M. Gill
Superintendent of Schools

Dr. Gill enjoys an evening's relaxation at the Science Seminar banquet

"Reach for

Dear Members of the Class of 1967:

In selecting the theme "Architecture of an Education" for your EL DELATOR, you have chosen well. An analogous examination of architecture and education reveals many significant similarities. The history of architecture portrays the story of man's experimenting with new materials and techniques in an effort to create structures that would more effectively serve his needs. Architecture is the most universal of all the arts; and education is the most prevalent activity of modern society. Architecture is the one art which touches everyone; the same prevalency may be claimed for education. To enjoy the beauties of a fine building is an experience available to all men; universal education has made the learning experience available to all our youth. Architecture is an intensely human art; education is an intensely human experience. The art of the builder is never complete; constantly must he seek to improve and strengthen his skills. Your education began the day you were born. Much of it took place before you came to Cheltenham; it was continued here, and must be an ongoing experience as long as you shall live. As the builder reaches for the stars in his efforts to better house mankind, may you reach for the stars as you continue to improve your minds and to seek the betterment of your fellow man.

E. B. KEIM

the stars" as you build your mind, counsels Dr. Keim

Dr. Keim hosts annual Science Seminar dinner at CHS

"What do you mean by having schedule B on an A day?" Mr. Guarneri and Dr. Keim ponder schedule problems.

Heads of state, Dr. Keim and Mr. Lehman, oversee traditional Abington bonfire

An administrative decision finds Dr. Keim involved in a huddle with Mr. Lance, Mr. D'Ancona, and Mr. LaMorgia

Assistant principals translate blueprints into action

MR. WILBUR LEHMAN

The Victorian society trained students to respect the propriety of their world. Assistant Principal Wilbur Lehman is in charge of maintaining the good citizenship and discipline so necessary to the efficient educational system at Cheltenham

The same co-operative order that is vital to an educational process is the essence of teamwork. Encouraging the sportsmanship inherent in Victorian athletics, Mr. Lehman co-ordinates and supervises the school's sports programs

MR. JOSEPH GUARNERI

The flexibility and freedom of the modern elective curriculum brings with it the complexities of individual rostering. The problems of rostering are the responsibility of Mr. Guarneri, one of Cheltenham's three assistant principals. His efforts make possible the wide selection of major and minor courses, as well as the broad club program.

MR. ROBERT TRIMBLE

Ever since public education became universal and compulsory during the Victorian period, schools have been responsible for keeping accurate attendance records. Mr. Trimble performs this duty at Cheltenham, and his efforts add to those of the other assistant principals in keeping CHS running smoothly.

Dr. Lois Bream makes frequent telephone calls concerning the welfare of her counselees.

Guidance Counselors help mold student plans

"What do you mean I can't get into Radcliffe?" Mrs. Gaither advising Robert Moore in guidance office

Like the indispensable tutors of the Renaissance, Cheltenham's guidance counselors ably assist students by providing expert advice. Counselors are unceasingly concerned with the educational needs and personal welfare of each student. Students can find vocational and college information in a well-stocked guidance library. Counselors and students plan for the future in frequent individual conferences.

"No I can't schedule an appointment for you until December 25." Mrs. Margaret Longcope making a guidance appointment for Marlene Klem in guidance office

English attains equilibrium of language and literature

Proficiency in one's own language is a time honored concept. Cheltenham's English department endeavors to create a sturdy foundation in our language by developing skills on two basic levels.

The practical level of English study involves each student's perfection of important mechanical skills. As in Roman times, the student learns grammar so that he may clearly and effectively express himself in writing. New disciplines, such as structural linguistics, help the student to view grammar descriptively and to see over-all patterns. Vocabulary building and reading skills are greatly emphasized. The student must also learn to think logically and to execute well-planned and thoughtfully developed compositions.

The aesthetic concerns of the Greeks constitute the second and more advanced level of study. The student encounters a variety of literary masterpieces of diverse forms and civilizations ranging from the *Odyssey* to the poems of Frost. He learns to analyze critically and perceptively. The student is guided toward an appreciation of literary style. He is encouraged to think creatively and to apply the principles he has absorbed to his own personal expression.

"By the way, Sherry, have you ever read Thomas Hardy's 'A Pair of Blue Eyes'?" Mr. Thomas Stretton proposes new ideas to his English IV students.

"Meet my friend, the Emperor Jones." The use of symbolism as a form of communication is illustrated by Miss Judith Peterson and her coat rack.

"When that Aprille with his shoures soote . . ." With a twinkle in her eye, Mrs. Marie Hildebrand introduces her students to the writing of Geoffrey Chaucer.

Social studies unites concepts of past and present

History is a compilation and study of past civilizations. Contemporary historians seek an understanding of the factors that influenced the molders of the past. Today the values and accomplishments of former societies are analyzed and interpreted from a modern perspective. Comprehension of former inspirations enables men of the present to better govern themselves and their societies.

In an attempt to portray the personalities of our heritage and to present each era to their students, the history teachers of Cheltenham are developing a new team teaching program. Such a program provides combined study of history and English—a presentation of the thoughts and systems of a people through the literature of the time.

Vivid images of the past are made possible through increasing use of visual aid materials. The history department is helping to choose a permanent film library for the school district. In essence, the history student is guided in a search for the understanding of the concepts and principles of human behavior and development.

"Does everyone understand? . . . Good." Mr. Thomas Feenev and his math class reach a meeting of the minds

With the designer's concern for precision and pattern, the mathematician orders numbers systems. Just as the architect builds level upon level to accommodate the functions of society, the mathematician develops new disciplines to encompass and represent modern theories and observations.

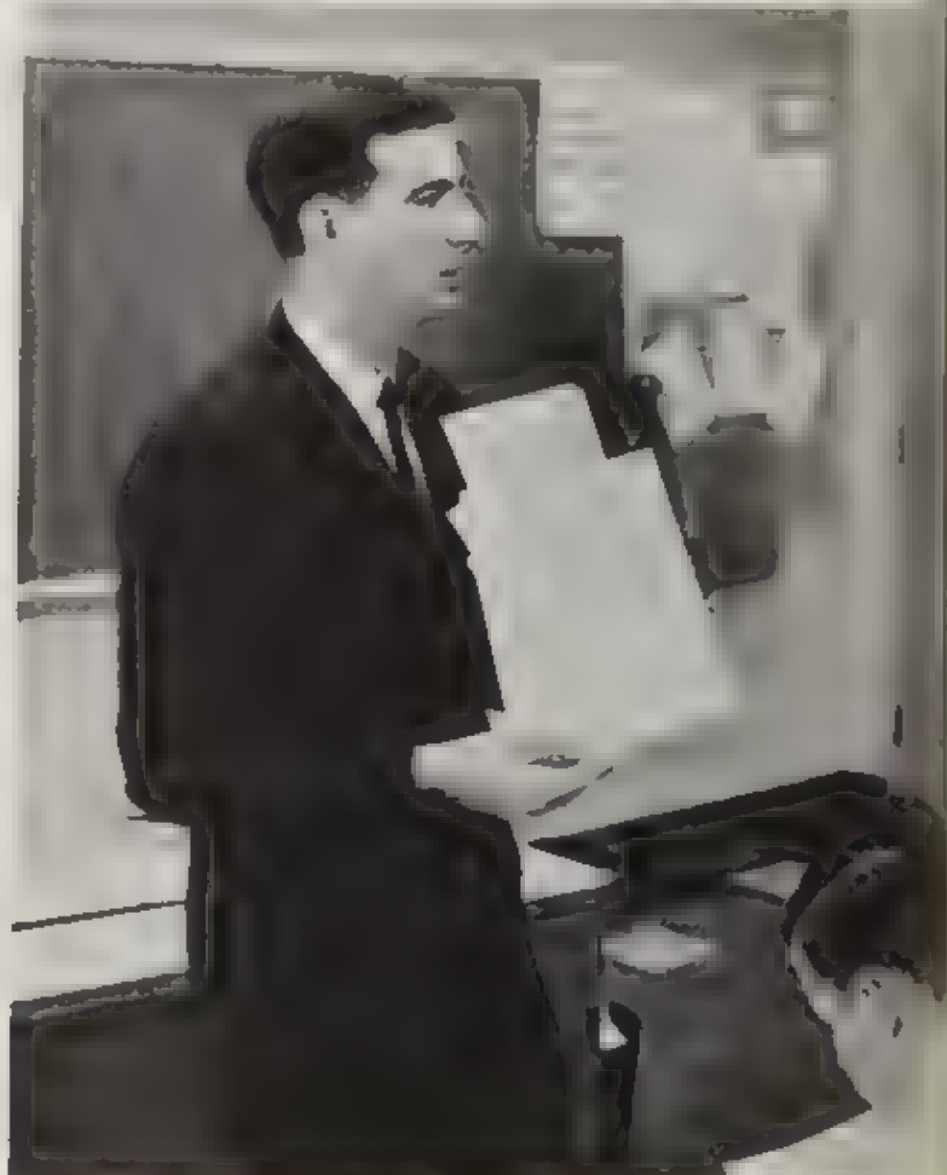

The Modern Math program, now taught at Cheltenham, provides the student with an orderly sequence of basic principles. Emphasis on inductive reasoning and proofs teaches the student to learn through self discovery. A minimum of rote memorization prepares a student of Modern Math to handle numbers with originality in order to solve a diversity of mathematical problems

The student who completes the eleven books of Modern Math by the end of eleventh grade is able to elect a course in calculus or statistical inference. In addition, a professor from the University of Pennsylvania instructs an extracurricular course in introductory computer programming.

To understand the manipulation of mathematics is to master the art and discipline of numbers and logic. Success in this kind of endeavor provides a unique and concrete satisfaction to the student.

"Of course you may have my autograph" Mrs. Mary Hazzard helps Joe Levin with a math problem.

Science keeps pace with whirlwind modern era

The work of the modern architect is characterized by innovation. Similarly, Cheltenham's science department, dealing with the most modern of all studies, is changing its methods and facilities as rapidly as modern discoveries are changing its subject matter. BSCS, PSSC, CHEMS—each of these new approaches has been built into Cheltenham's curriculum within the last few years. The new wing, with its added facilities for lecture-demonstration, lab work, and research, will further aid study in the three traditional areas of biology, chemistry, and physics; and the new planetarium will for the first time make possible the study of astronomy. Laboratory work not only illustrates and expands the material taught by lecture, but also prepares the student for the independence in investigation that he will need in order to study science later in his education. By integrating the answers of textbook and lecture with the techniques of practical laboratory experience, the CHS science department tackles the questions of science

"By the way, has anyone seen my car keys?" Mr. Donald Bonney quizzes class.

"I'm glad you're here. Now I have someone with whom to speak Spanish." Mrs. Carole Alderman welcomes a friend to Spanish class

"No, I'm not that Mr. Olsen!" Mr. Alvin Olsen denies affiliation with Superman.

Roman educators were the first to express significant interest in foreign cultures. Rome was building an extensive empire, but her leaders lacked the ability to communicate with her conquered peoples. Because this communication was vital to the success of imperialism, Roman schools introduced the study of foreign languages into their standard curriculum.

Cheltenham has preserved the Romans' desire to understand other cultures. Students are offered French, German, Latin, and Spanish. Courses incorporate comprehensive texts, audio-visual aids, and a modern language laboratory. This practical experience yields ease and assurance in reading and writing, and fluency in oral expression.

The language department's concern is not only linguistic, but also cultural. Pupils read and discuss foreign magazines and national histories, and view movies filmed abroad. These experiences appropriately culminate the years of cultural and linguistic study at Cheltenham.

Linguists encourage fluency in foreign tongues

Physical fitness was a vital element of Greek life and schooling. Cheltenham's physical education department retains the essence of the Hellenistic aim to develop the all-around athlete. Students are exposed to a panorama of apparatus and equipment, and they may further their interests through the intramural and interscholastic programs.

Even though most students are not Olympic bound, they are made aware of the need for agility and vitality. The physical education program reaches our entire student population with a curriculum combining bodily exercise and sports skills. Frequent fitness examinations measure student progress against a national standard. A sport that has become an important physical activity in recent years is swimming. Students make use of Cheltenham's pool to begin or improve upon skilled swimming techniques. Those students who are unable to join the standard gym program have the opportunity to participate in remedial gym classes.

The physical education program, dedicated to the idea that physical fitness is essential to an alert and efficient mind, is a basic and significant part of Cheltenham's curriculum.

Artists strive for classical balance

The fine arts department brings to Cheltenham form and beauty—the two qualities most appreciated by the Greeks. Students are taught to capture the intricacies of the world around them and to express themselves creatively. Each young artist can dabble in all of the familiar media. Sculpture, painting, and sketching are just a few of the many areas open to a budding Rembrandt or Picasso. Creations of the art students can be enjoyed by those who stroll through Cheltenham's halls and who frequent its art exhibitions. Their efforts also provide attractive scenery for our dramatic productions. The art department strikes a classical balance between beauty and function.

Girls prepare for home responsibilities

Until the nineteenth century, young women learned domestic skills at home. As post-Victorian woman involved herself in world activities, her education became essential, and schools began to include home management in their curricula. Cheltenham's home economics department prepares its girls for the responsibilities of homemaking, nutritional meal planning, and parenthood. Interior decoration and sewing complete the skills essential for the domestication of the modern young lady.

Students explore business labyrinth

Providing a firm foundation of efficient business skills, Cheltenham's business education department builds its students' commercial know-how. The student is given every opportunity to use the most up-to-date equipment and to gain practical experience by working in the store, the bank, and the office. Because of their excellent training, CHS business students are able to accept important positions in the world of commerce immediately after graduation.

Nurse maintains tradition of Florence Nightingale

If the mind is to absorb the opportunities that education offers, it must be housed in a healthy body. Mrs. Hicks, the school nurse, cares for the well-being of Cheltenham students in an efficient and modern health suite. Through periodic physical examinations and dental check-ups, Mrs. Hicks and other medical personnel insure the sound bodies so necessary to sound minds.

MRS. EDNA B. HICKS
R.N.
School Nurse

"Bull's eye, first time today!" Mrs. Edna Hicks administers the annual TB test to Marta Karloff

"Write 100 times, 'I will keep my hair out of the printing press'." Mr. Wilbur Hurst instructs Vicki Kassow in a graphic arts lesson

Modern industrial arts stem from the technological advances of the Victorian age. Cheltenham's industrial department trains its students to be skilled and creative craftsmen. A student may work in one of four areas: metal work, woodwork, mechanical drawing and printing. Every year the shop is equipped with newer and safer tools and machines. Research and planning are stressed in the imaginative projects which the department's students undertake

Industrial revolution spurs quality and originality

"Who's been stealing the paper clips?" Mrs. Cassidy and Mrs. Atkiss check inventory supplies in the mailroom

"Did someone say coffee break?" Efficiency and service to CHS faculty are part of Mrs. Elizabeth Phillips' many duties.

"There goes another \$10" Filing out student transcripts for college keeps Mrs. Alice Cornell busily engaged

Secretaries form nerve center of building complex

The endurance of any structure depends upon the strength of its bricks and the extent of their mutual dependence. Similarly, the successful organization of Cheltenham's administration relies on the seven secretaries who efficiently discharge their individual duties, yet are always eager to lend support when it is needed in other areas. Each secretary is a necessary component in a complete and functioning foundation of education.

"You've passed the legal limit of demerits, you know." Mrs. Isabel MacMillan guards the portals of Mr. Lehman's inner sanctum

New library atmosphere enlightens student body

Since the establishment of public libraries during the Victorian era, the general public has had access to more books in increasingly convenient locations. With the construction of the new wing, the library at Cheltenham has been enlarged and embellished. The air-conditioned, carpeted room is designed with the comfort of the student in mind. Study carrels, the individual study desk and shelf compartments provide privacy. The record room has individual listening booths and enables the student to listen at his convenience. A nearby classroom is equipped with sample materials which aid the librarian as she instructs eleventh-grade classes facing the research tasks of an English term paper.

The new library has the capacity to hold twice the present number of books. With the future comes the promise of an extensive collection of newly purchased texts.

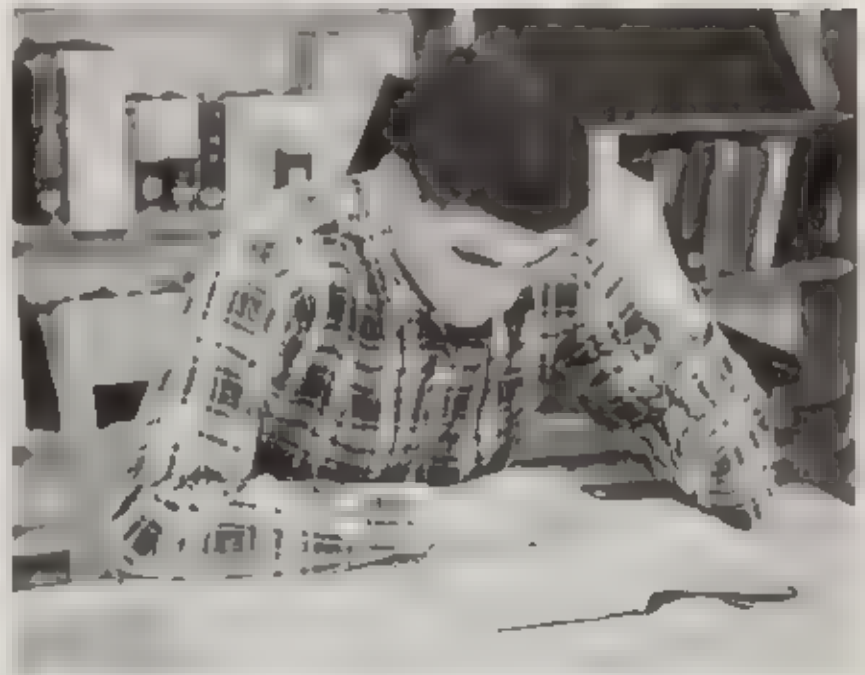

"So then I suggested that we go to the library," Marty Jacobs relates his study hall adventures to an enraptured audience.

"Stay in, Andy, I think he's bluffing." Students use library time profitably.

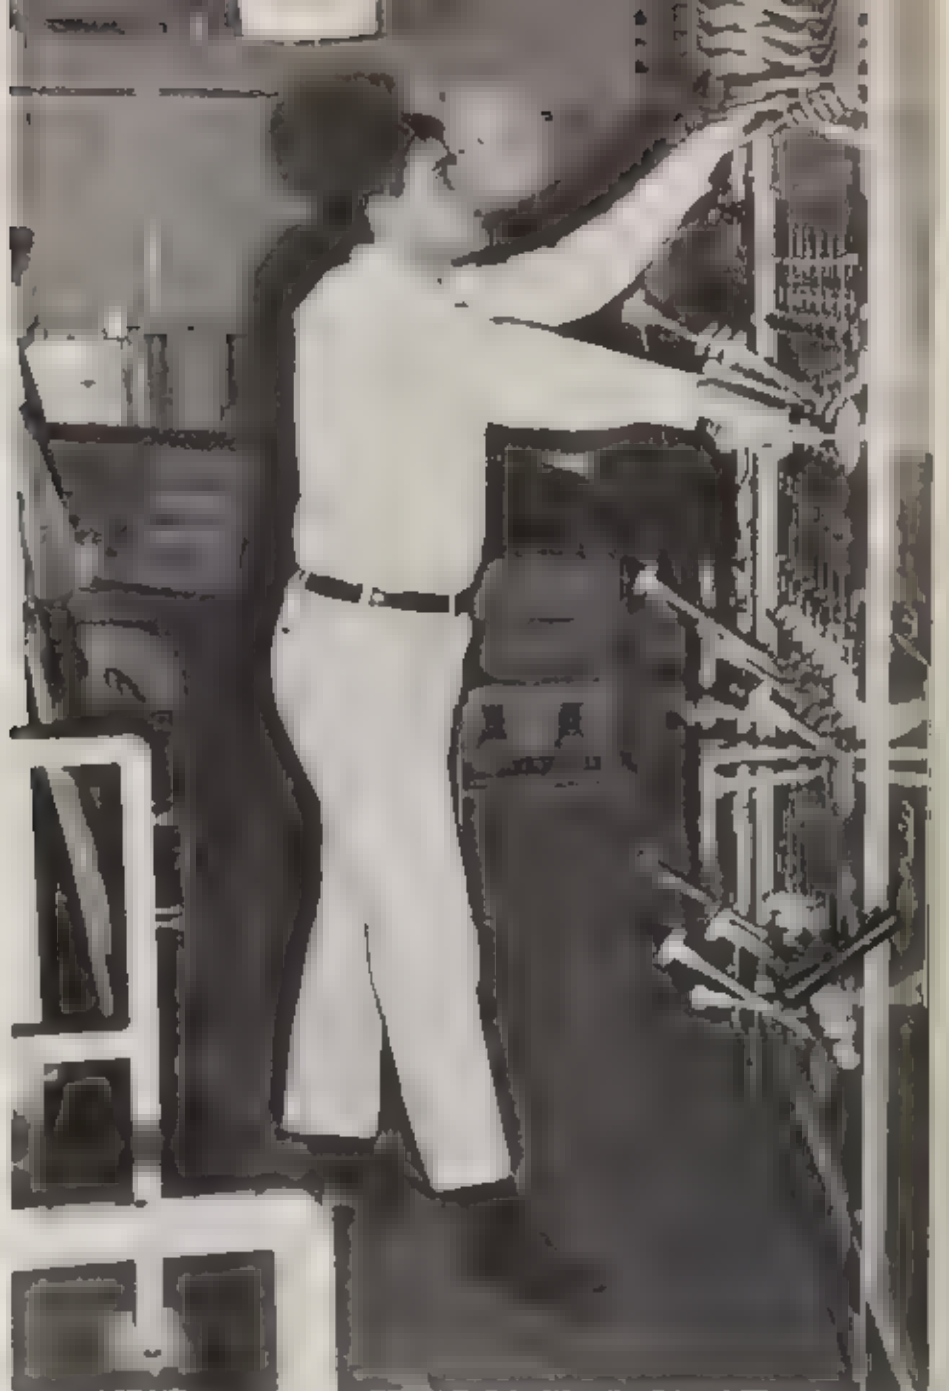

"Well, how about next Saturday night?" Jill Samter and Dale Kelberman take advantage of new library facilities

Dave McCluskey sits in chair and outwits Yearbook captioners.

Industrious atmosphere encourages efficiency of Barry Koffler, Peter Reinhart and Andy Reed

ACTIVITIES

Ozer. **Fourth Row:** R. Foerster, S. Gourley, R. Appel, M. Hankin, N. Goff, A. Donsky, C. Littlepage, D. Kelberman, T. Miller, B. Boonshaft, P. Aucott, W. Verbin, R. Rock, A. Goldman.

Student democracy dominates doctrinal decisions

'Scrooge' McKenna hoards beginnings of his retirement fund

Dauntless zest and tireless work marked the 1966-67 Student Council. The fifty-one homeroom presidents, the committee chairmen who make up the Executive Committee, and the four officers initiated the many activities whose great success were a credit to the Council. Organizing a schedule of student functions and fund-raising drives was among the many responsibilities that the Student Council tackled with alacrity. The Council sponsored College Conferences which provided first-hand information to aspiring students and a Leadership Conference which consisted of discussion groups on world affairs and social problems. Though the outcome of the game was a bit disappointing, Abington Weekend's exciting pep-rally, bonfire, and Football Dance were triumphs in Student Council planning.

Under the sincere and inspiring leadership of executive officers David Richman, Sue Myers, Debby Lefco, and Holland McKenna, Student Council also launched a vivacious schoolspirit campaign. The student government encouraged the student body's participation in school affairs and welcomed suggestions and criticisms. Homeroom representatives relayed their fellow students' opinions expressed in homeroom meetings. Various actions helped to remedy everyday school problems. An important innovation was the creation of the Student-Faculty Contact Committee which was designed to keep open the lines of communication between students and teachers. Student Council enthusiasm and creativity made it an organization that worthily increased our pride in Cheltenham.

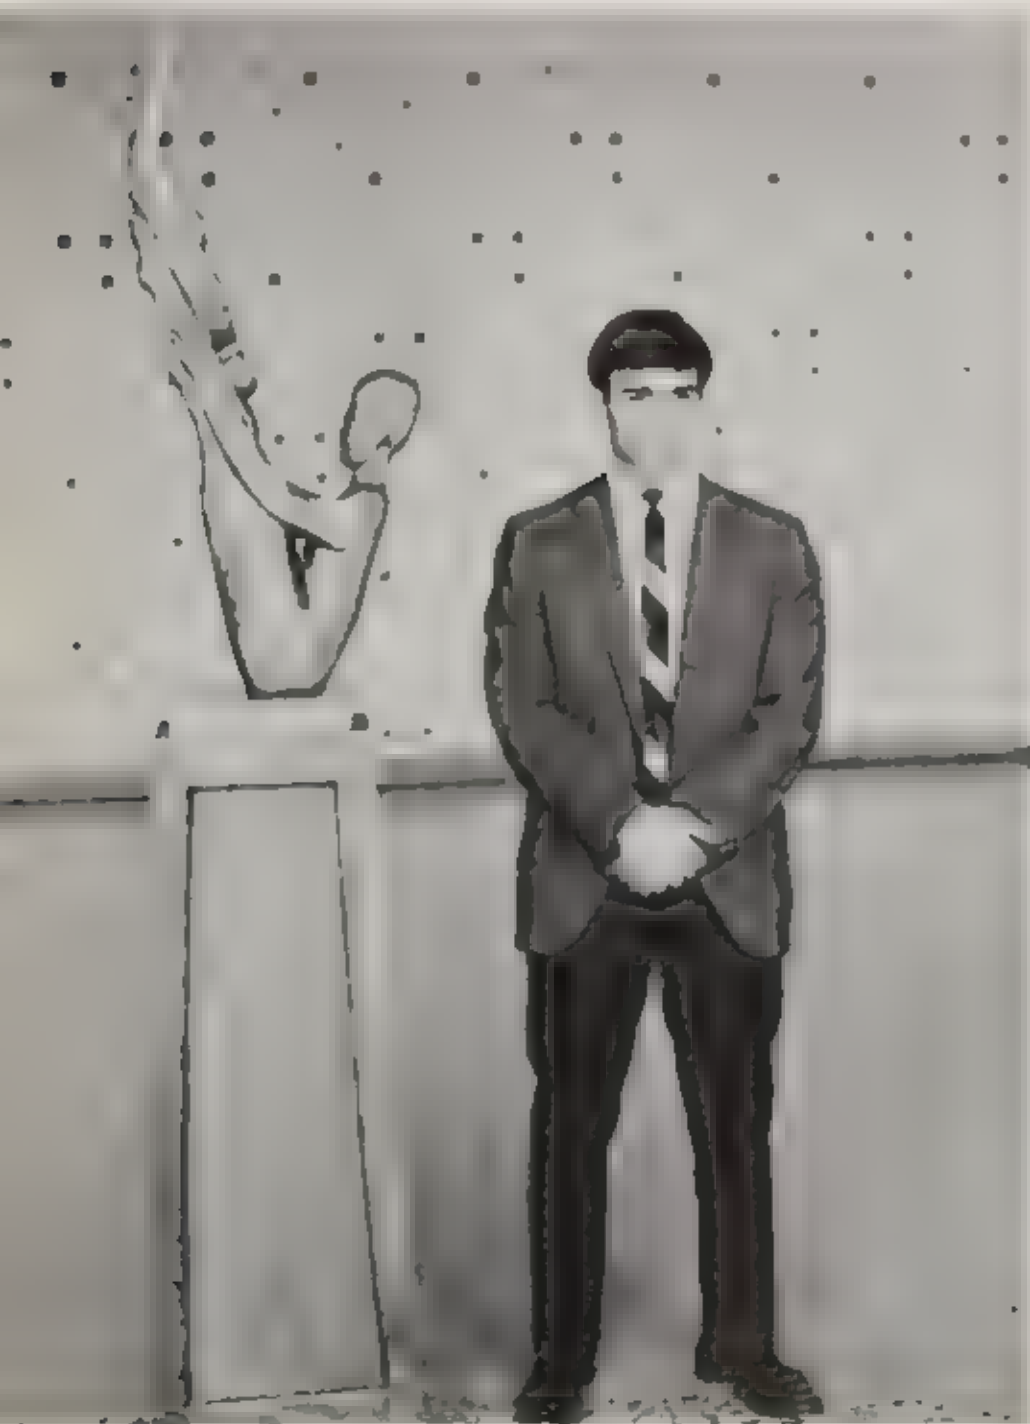

"At a survey taken in Teaneck, New Jersey . . ." Student Council members stage sit-in during meeting

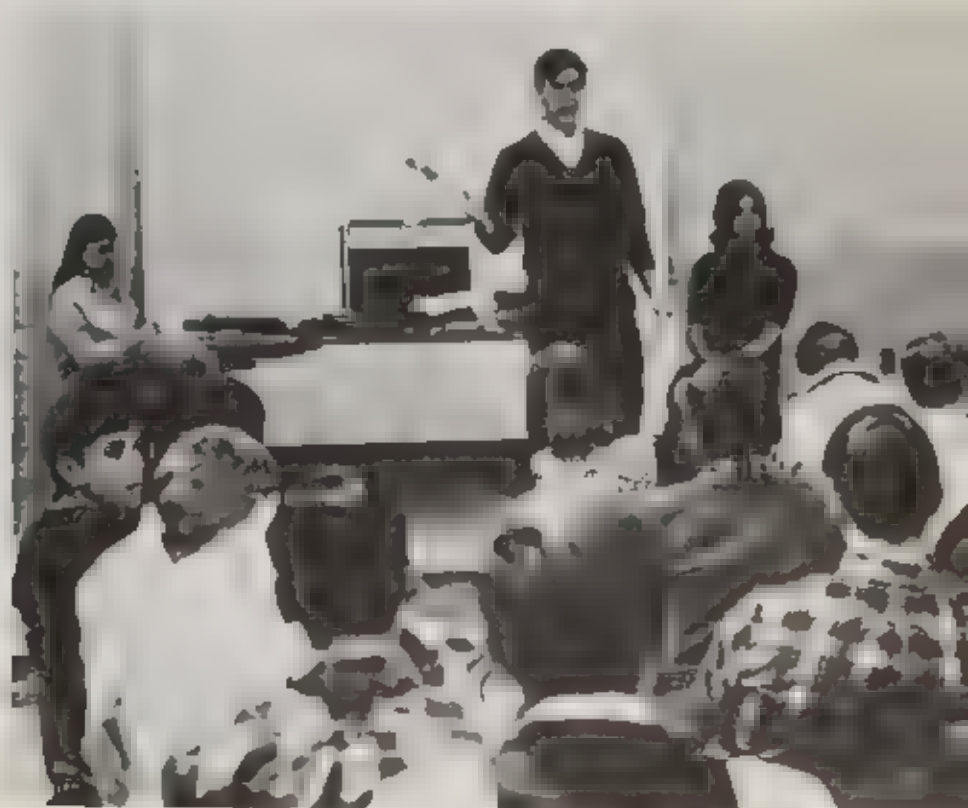

"Thinks he's one heckuva guy, doesn't he?" Mr. Joseph Prusan comments to Mr. Richard Gross on David Richman's apparent self-esteem.

"And just what do you thing YOU'RE doing?" Sue Nitzberg and Nancy Rhodes prepare a bulletin board poster

Scissors and packs of bright paper accompany the busy members of the Bulletin Board Committee as they turn naked cork into eye-catching displays. Keeping the boards up to date and attractive is the responsibility of about seventy C.H.S. students. Some displays announce or advertise school events; others celebrate holidays or seasons; still others serve to keep the halls attractive. The committee's skillful members do commendable work for their school on their own free time.

Social Committee

"I have been known to reach high M above L." Jan Kitzen considers the intricacies of the violin

Cheltenham's orchestra and band are further indications of the uniform excellence which has become standard at our school. Remarkable talent, strictest discipline, and dynamic leadership have fused to produce these unique musical organizations, thereby bringing pleasure and satisfaction to their audiences.

The Cheltenham band, under the leadership of Mr. Ronald B. Dellecker, provides our students with fine musical entertainment and spirited school support. During the autumn months, the band members march and play at all football games and in many local exhibitions, including the Philadelphia Thanksgiving Day Parade. After the fall season, the group begins intensive rehearsals for junior high school presentations, the March Musicale, and the Spring Music Festival.

Cheltenham's orchestra contains talented musicians who rehearse regularly for their frequent performances. Directed by Mr. Henry Kerr Williams, the members of this organization attain outstanding quality and unlimited versatility in the numerous concerts presented to the school. Among their annual accomplishments are the winter Holiday Music Program, the Spring Music Festival, the orchestral-choral-dramatic Broadway musical, and Commencement in June. The orchestra helps to create and develop within each Cheltenham student a deep appreciation of fine music.

Orchestra and Band keynote musical accomplishments

In keeping with modern education's desire to provide challenges to gifted students, Cheltenham's music department provides opportunities for students to participate in district and regional festivals. Talented singers and instrumentalists audition for positions in district choir, band, or orchestra groups. Those students who are selected attend their respective festivals which consist of three days of intense rehearsal, taping sessions, and concert performances. Participants of regional and state groups are chosen from the district performers

"Wait 'til he tastes it!" Adena Greenberg anticipates reaction of her unsuspecting date

Underclassmen Marshall Fleisher, Eric Shore, Ronnie Simon, Barry Schwartz, and Ronnie Margolis prepare ambrosia nectar for Junior-Senior Reception.

"Hemlock anyone?" Ronnie Margolis offers repast to Sue Brodtkin and her escort.

"Oh yeah!!" Asher Granison echoes sentiments of reveling Chelts.

The nature of an ideal curriculum is such that it must consist of a varied selection of diversions to accompany the academic program. The Social Committee and the administrative organizations provided the student body with sundry festive events throughout the school year.

From the antique society of Greece came the theme for the Junior-Senior Reception. The able Junior Class succeeded in transforming the school cafeteria into a Classical hall, rich in Hellenistic flavor. Order and rationality dominated the planning of the reception under the auspices of Junior Administration. "The Five Guys" from Penn State University provided a versatile repertoire of popular music.

The Mod syndrome of England dominated the November Football Dance at which contemporary music was provided for by the Oxfords.

Finally, after months of assiduous planning, the work of Sophomore Administration, culminated in the Sophomore Dance, had as its theme L'il Abner.

Terpsichoreans trip the light fantastic

"Handsome devil, ain't I?" Bruce Dobb confesses.

man, K. Martin, J. Fagan, P. Weiner, J. Mayer, M. Hankin, L. Widman. Third Row: J. Rush, H. McKenna, S. Goldberg, P. Somerson, D. Heskell, W. McKenna.

"These photographs prove it, Mr. Leader" Editor-in-Chief Fred Osview advises Mr Selwyn Leader on Cheltonian photos

The *Cheltonian* provides the journalistic opportunity for the students of Cheltenham to relate and express news, opinion, sports results, and reviews. The paper is a communication link among the students. The staff, sponsored first by Mr. Selwyn Leader and then by Mr Edward Bringham, has encouraged the student body to comment on the school and to the school, while upholding the rule of well-expressed intellectualism. More diverse student participation in this pastime of writing permits more comprehensive coverage of the educational and social facets of our high school. As a benefit of the Student Activity Ticket, and an important part of a united spirit in Cheltenham, the *Cheltonian* is distributed in homeroom to Activity Ticket holders. In light of the goal to discuss school policy with "good taste," *Cheltonian* has been an important issue for the student-faculty contact committee.

The variety of writing styles spans "honestly, accurately, fairly" reported news, the critical thought of reviews and editorials, and the personal expression of poems and "fairytales." Editor Fred Osview has coordinated the publication of four fine pages of opportunity.

Justly credited for a page well-edited." Lynn Rothschild alters fault's faults.

Shepard Goldberg peruses panther publication

"There seems to be a hole here" Mr. Edward Bringham points out trouble spot in Cheltonian copy to Jeff Rush

This year's *Panther* staff published a literary magazine despite its handicap of limited funds from Student Council. Because of a deficit in Student Activity Ticket subscriptions, the staff found it necessary to shorten the magazine by eight pages and increase the price of the publication from thirty-five cents to fifty cents.

The select group of literary and art-minded students, under the direction of Mrs. Harriet Goodheart and Mr. Edward Bringham, coordinated the prose and poetry which the Cheltenham student body had submitted to the magazine. The staff had maximum freedom of choice in selecting twenty pieces of copy from the almost two hundred items which they had accumulated. This year, Editor Daniel Levin had several competent artists and photographers on his staff and therefore, more sketches and photographs appeared in the magazine than ever before. The *Panther* members enjoyed a valuable and unforgettable experience. They compiled for Cheltenham a memorable record of creative expression.

This is Marty Katzin. Color him bored.

Perlmuter, A. Donsky, J. Rush

"Joe Banana still owes us two grand." Sponsor Mr. William Norton relates complications of publishing economics to Richard Greenberg

Athenian popular democracy was the first institution to stress the citizen's responsibility to express his views on public matters, a policy which found a tangible symbol in the Roman Forum. Modern "education for citizenship" continues to emphasize the need for citizens willing and able to think out current problems for themselves. The *Forum*, Cheltenham's magazine of topical comment, furnishes CHS students with an outlet for their thoughts, no matter how unusual or controversial. By encouraging thoughtful, well-written articles on national, local or school problems, the *Forum*, in its own words, "takes an impartial look at pedantics and dispels the stifling of creativity in a macrocosm burdened with objective hypocrisy. As the eyes for the generation which has been blinded by surrealism, the *Forum* is a state of mind."

"What, me worry?" Editor-in-Chief Susan Schwartz maintains her cool.

O.K., O.K. Jane. It was the typewriter's fault." Copy Editor Nancy Kuziemski humors distraught Activities Editor Jane Pastner.

1967 El Delator

"Smile, Voltaire, you're on Candide camera." B. Dobb, D. Gates, D. Inouye, D. Fleisher, editor; and J. Toporek are big shots.

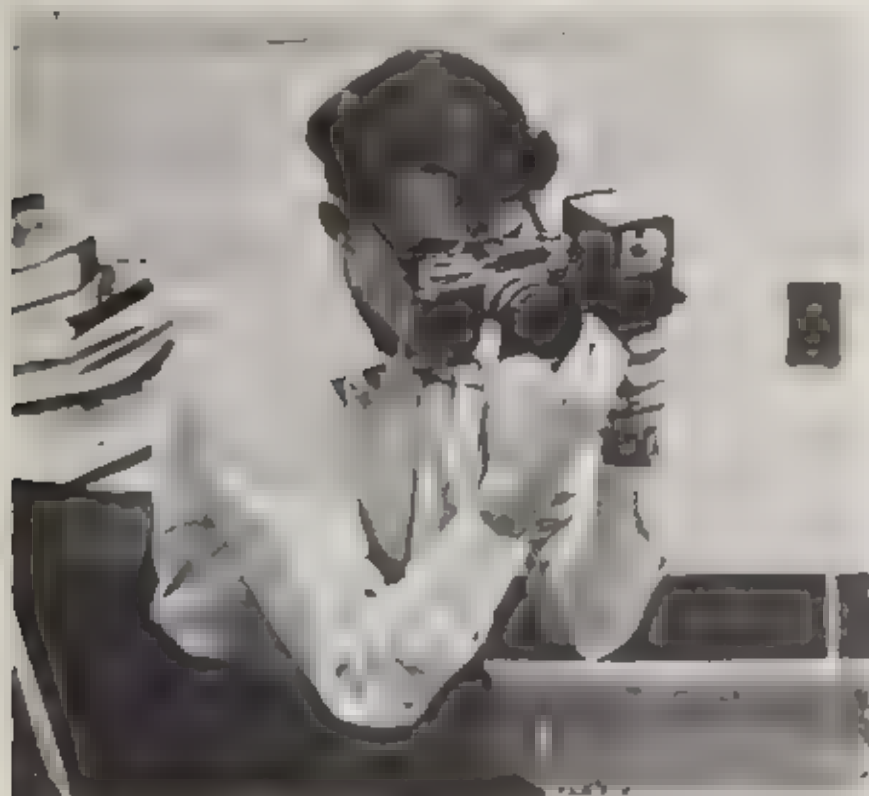

Putting together a yearbook is a long, arduous job. The 1966-67 staff had just enough time to distribute the yearbooks at the morp before sitting down to begin the final choice of a theme for the year to come. The effort requires the co-ordinated work of writers, photographers and captioners, and demands a large decision and a dozen small ones every day. It is a job of deadline-day fatigue, of lost pictures, and of captions that simply will not come. It is a job of bull sessions over hot chocolate, of pages finally completed, and of just the right word. It is sometimes a pain in the neck and sometimes a lot of fun in its own right.

And it is a project with a big tangible reward in addition to the intangible ones. We, the editors and staff of the 1966-67 EL DELATOR, have provided a lasting record of this year at Cheltenham. We hope that EL DELATOR will mean more than a mere 200-some pages of print. Our words and pictures can at least represent the memories of an eventful year, and may, we hope, summon them up again in the years to come.

"... 'i' before 'e' except after what?" Ellen Rensel encounters difficulty in captioning a yearbook picture

Yearbook Photography Editor David Fleisher zooms in on his subject

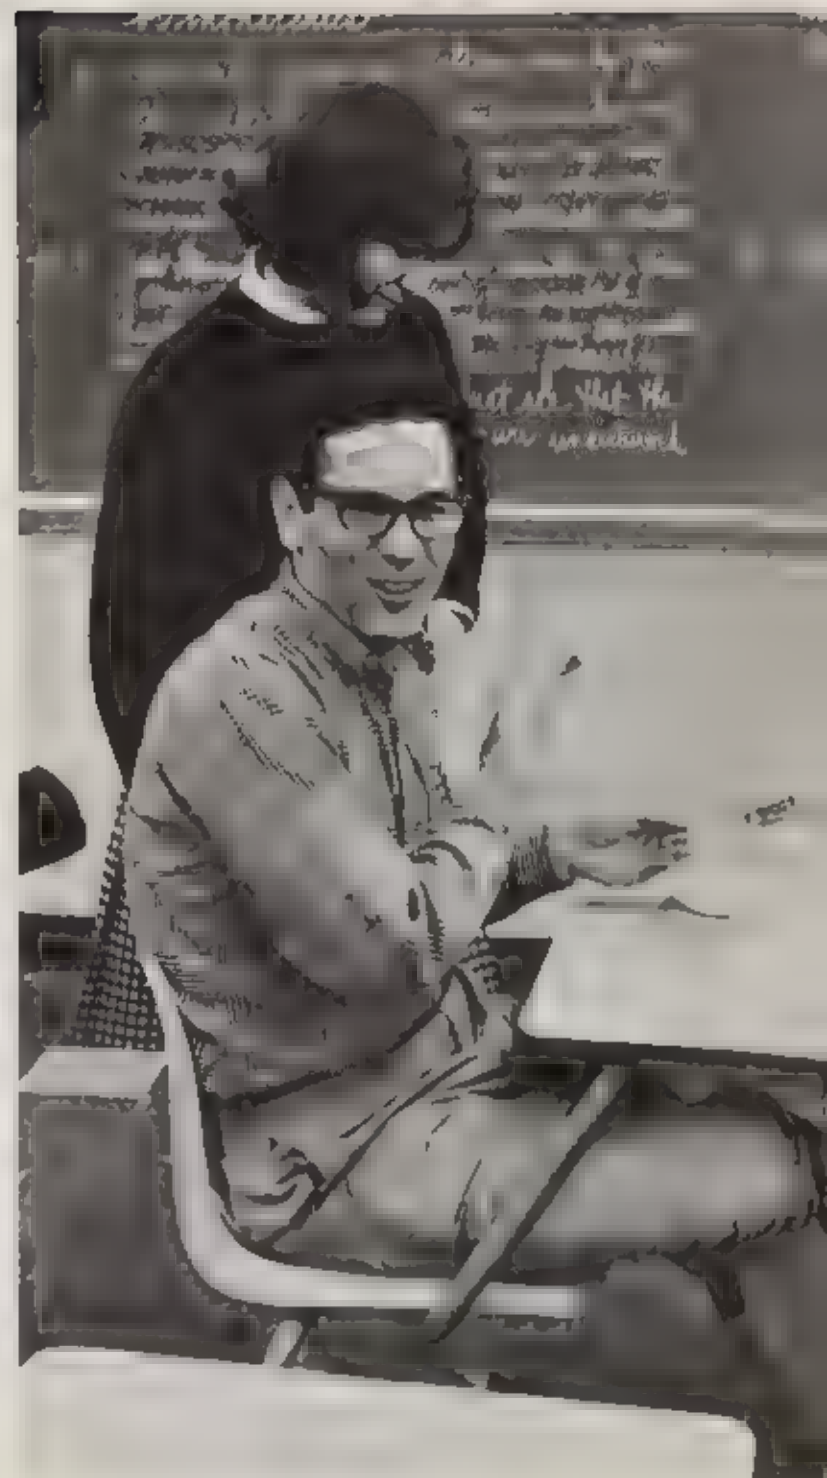

Mr. Joseph Guarneri inspects the progress of El Delator during an infrequent visit to the yearbook inner sanctum

"Zelma wants you!" Club Editor Zelda Stern enlists all the help she can get.

"But the ouija board predicted a smooth path." Mr. Joseph Simms lets his fingers do the walking.

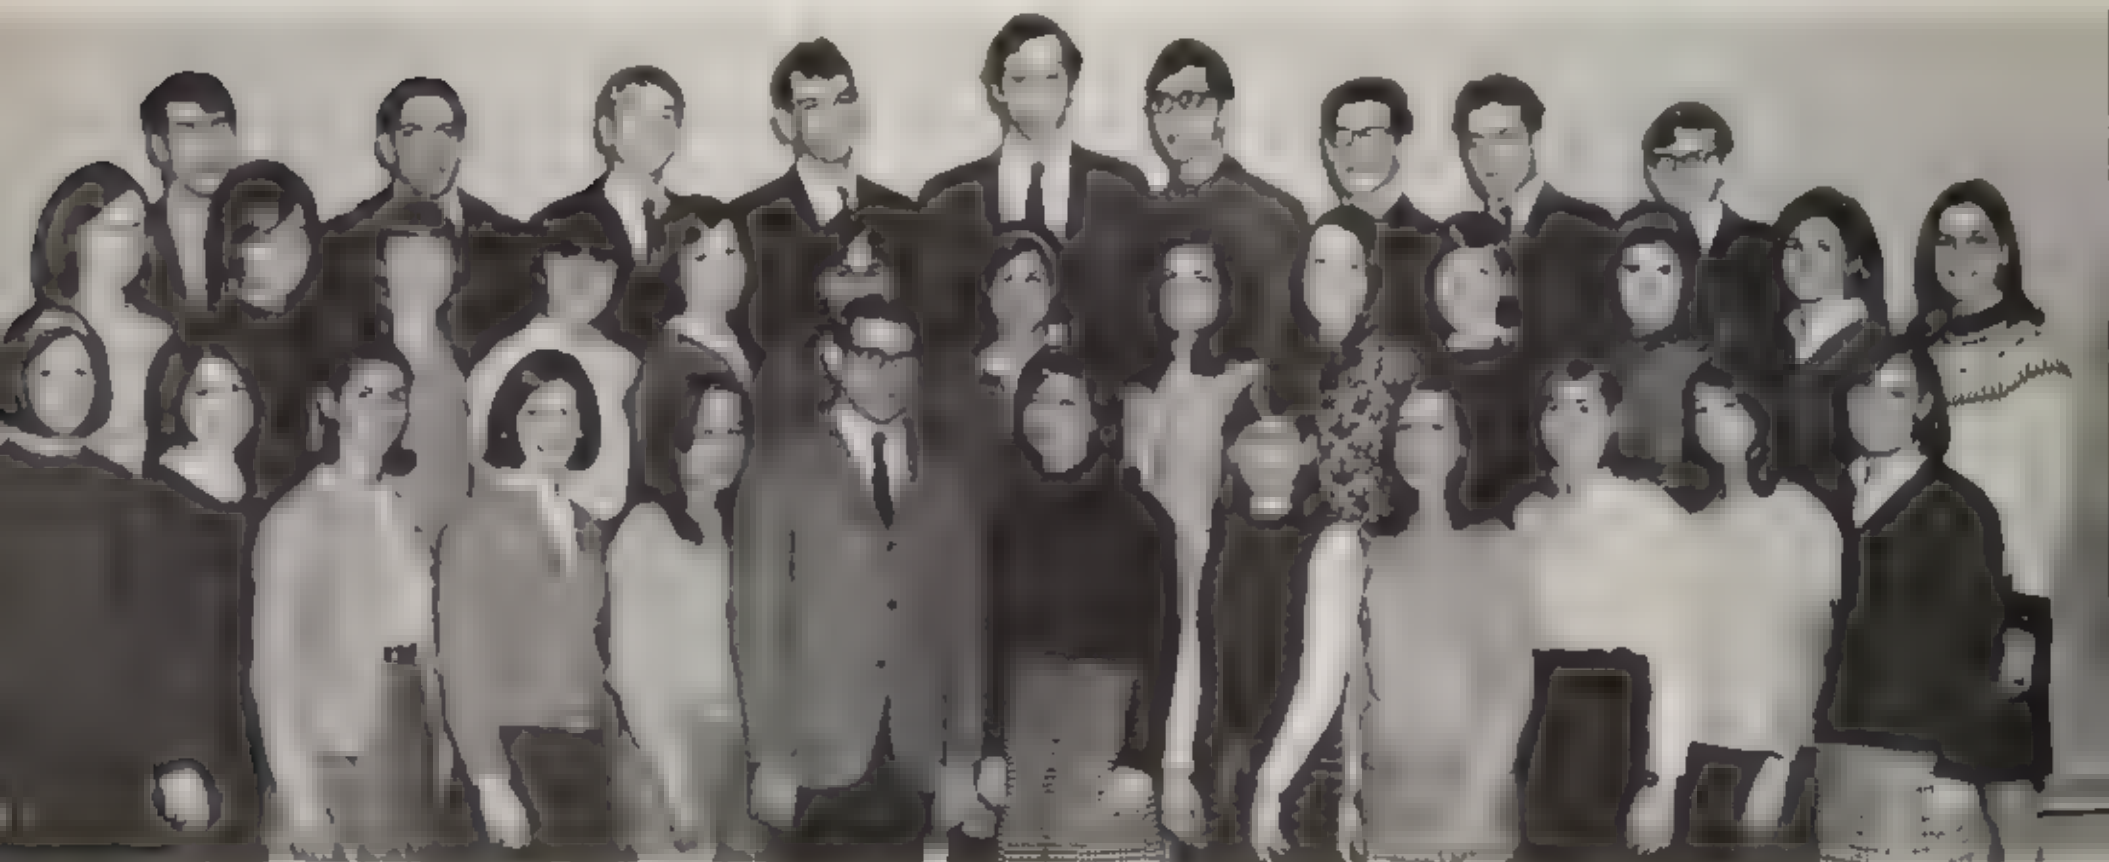

"And when someone makes an anti-walrus remark, I just die." Billy Haaz introduces himself to disinterested Mike Dietz.

Cheltenham's Public Relations Committee is responsible for bringing school activities to the attention of the school community. As Cheltenham's "image builder," the PR staff sends releases on a weekly basis to nine local newspapers, including *The Breeze* and *The Times Chronicle*, the northeast sections of *The Philadelphia Inquirer* and *The Evening Bulletin*. Special pictorial features, interviews, information on "Carnival," "George Washington Slept Here," the Globetrotters, and the Penn science project conducted at Cheltenham, have appeared in these papers. This year, in addition to newspaper coverage, the staff has expanded to the radio medium, and releases of our major events have been sent to the community announcement services of seven city-wide radio stations. Cheltenham has also participated in the Prep-spotlight broadcasts on WFIL-AM and the monthly reports on WIFI radio. Incorporated within the PR committee is the boys' and girls' sports staff which is responsible for accurate reporting of our athletic games.

"Since when do deadlines matter?" Sylvia Rabson blithely executes Public Relations affairs.

Seminarists sound scientific secrets

Dr. Ronald Green flies into a discussion of the hawk-goose phenomenon.

The Science Seminar provides an opportunity for interested students to have personal contact with experts in the four major divisions of science: biology, chemistry, physics, and mathematics. These men and women, many holding doctorate degrees in their respective fields, are usually members of the surrounding community. Their lectures were designed not so much to instruct the students in the details of the speakers' field of specialization as to give the participants an idea of the basic principles of scientific research as used in investigations today.

The program was organized by the Science Seminar Advisory Board, which is composed of student representatives, science teachers, and members of the community who are actively involved in scientific research.

Good teachers are the architects of education; our need for them increases every year. Cheltenham's Future Teachers of America Club is designed to stimulate the interest and deepen the understanding of those students who are seriously considering a teaching career. The Club program is well-planned and introduces its members to many facets of the teaching profession. Well-qualified speakers lecture students about their field specialty. Members also watch informative films, attend regional and state conferences, and visit elementary and junior high schools. FTA enables students to "learn by doing" through its teacher aide program. Students gain insight and experience by observing and assisting a faculty member in his daily routine.

"Who says I can't type under cover?" Judy Hyman questions Susan Kline's belief in stereotypes.

Row: N. Hibbs, L. Dubin, R. Sternfeld, D. Geigert

"Wood Evelyn help me to speed-read this book?" Roger Sternfeld thumbs through lengthy volume.

Although every civilization since the Greeks' has valued its libraries, it was not until the establishment of the medieval university that the library became an integral part of a liberal education. The flood of books printed since the Victorian Age has demanded complex filing systems and trained librarians. The CHS Library Aide Club teaches students the intricate procedures of a modern library, in addition to providing the library with the help needed to keep it running smoothly. Besides the routine work of writing notices, keeping the card catalogue up-to-date and organizing the shelves, club members are responsible for many of the original displays that keep students informed of the many new books that our library has to offer

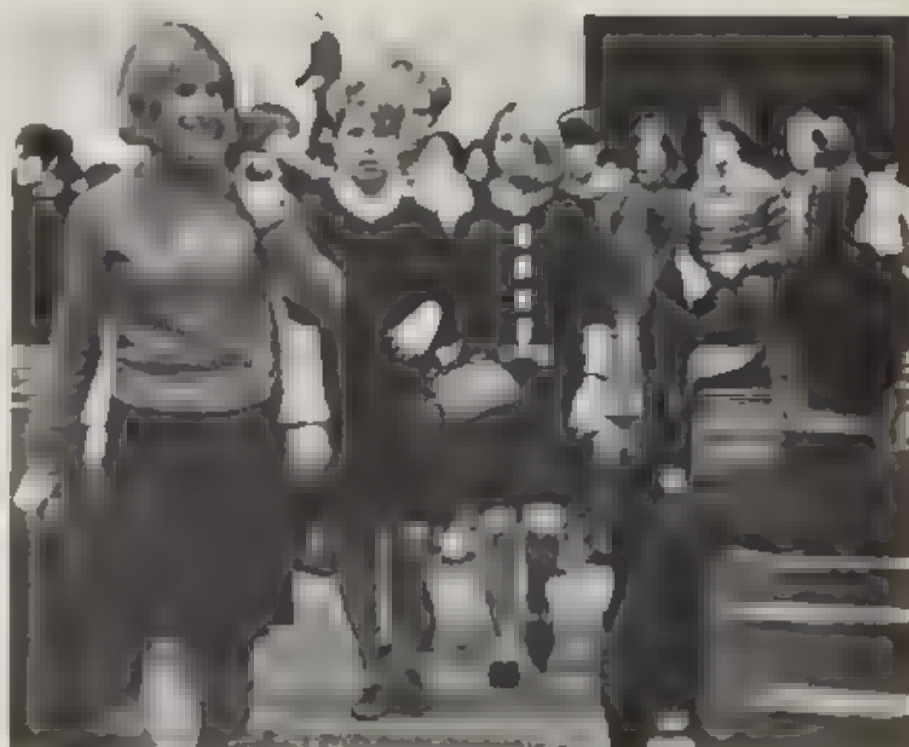

President David Richman presides over Student Council installations

As both an educational podium and an entertainment show-place, Cheltenham's auditorium has been the scene of fine assemblies this year. Organized by Assembly Committee chairman Chip Largeman, the varied programs included guest appearances, films, and lectures.

Programs by professionals were of high quality. Cheltenham's students were once again transported to the wilds of Northwest America via the rustic narrative of Mr. David Jardin. An amazing wizard, the first magician to frequent the Cheltenham stage, enchanted students and faculty with his miraculous skills. A powerful film poignantly emphasized the vital necessity of utmost highway safety.

Student-produced assemblies were also exciting and well-received. Student Council President David Richman gave an unprecedented "State of the Union" address in which he presented a refreshing "Plan for Greatness" to his audience. The excellent Winter Holiday Assembly provided musically-talented students with an opportunity to demonstrate their abilities. A preview of Cheltenham's dramatic production, "George Washington Slept Here" was also an assembly highlight. And traditional Awards Assemblies honored our outstanding athletes in all areas of competitive sports.

Captive audience escapes.

District Festival Performer Robert Schiller toots his horn

No one yawns as Washington sleeps

On the nights of November 4th and 5th, a talented group of Cheltenham thespians presented "George Washington Slept Here," the hilarious farce-comedy written by Kaufman and Hart, the acknowledged masters of American comic stage.

"GWSH" tells of the efforts of born loser Newton Fuller (Pete Aucott) and his sarcastic wife Annabelle (Debbie Lefco), both city born and bred, to establish a home in the country. They encounter problems rang-

ing from cows in the kitchen to evil landlords, but good triumphs at the end in a mad finale, in which Fuller's house is reduced to a shambles.

Under the direction of Mr. Thomas Stretton and supported by the efforts of many faculty members and students, the excellent cast turned a paper-and-ink script into an experience to delight two near-capacity audiences.

"Tennis, anyone?" Pete Aucott and friends attempt to distract Bob Dumin.

"Man oh Manischewitz! What a wine!" Pete Aucott makes wry observation to Debbie Lefco, Bob Dumin, and Sue Brown.

"And then there was that darn plow in the living room . . ." Debbie Lefco points out the disadvantages of country life to Sue Brown.

"No, the Welcome Wagon hasn't come yet . . ." Pete Aucott discusses good-neighbor relations with David Gorn.

" . . . And for the last time, get off my property!" Welcome Wagon representative Richard Milner has arrived.

"Oy, have I got a girl for you!" Aly Lent informs Pete Aucott of hot date prospect

"Pilot to co-pilot . . . Pilot to co-pilot . . ." Technical services committee helps with production problems

Phyllis Herish and Bob Norberg wonder "where the action is."

Mr. Thomas Stretton observes that "There's no business like show business."

"A dime, a dime! My kingdom for a dime!" Richard Tecosky searches for hidden treasure

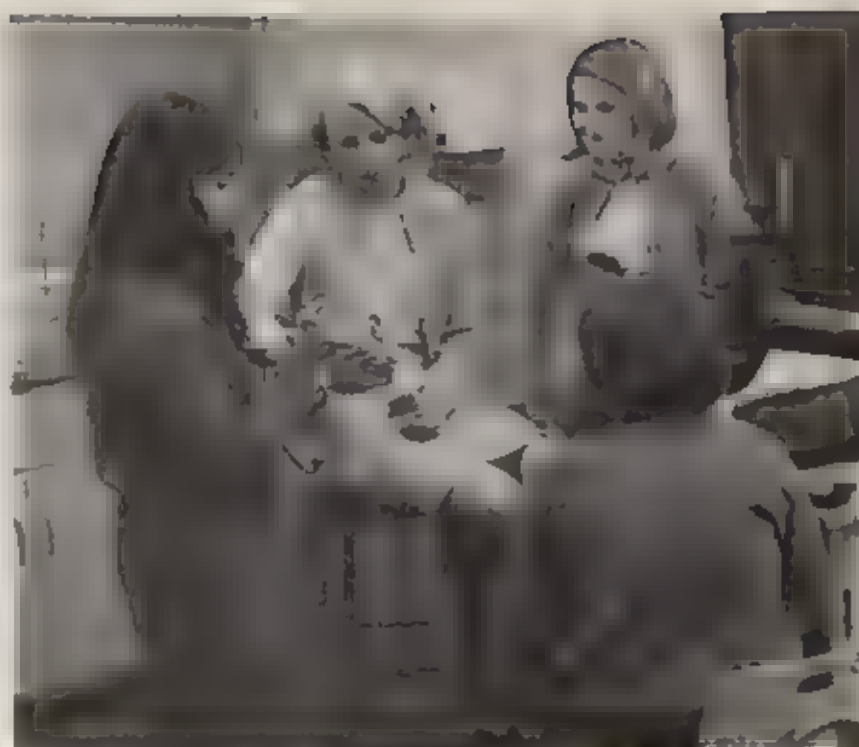

"Mirror, mirror on the wall . . ." David Gorin prepares for his role as Mr. Kimber

The primary purpose of the Scenic Design Club is to provide sets for the major dramatic productions at Cheltenham. Mrs. Sarah Maissel succeeds in teaching the club members the fundamentals of set arrangement. The students complete a short study of the history of stage design, and they delve deeply into the principles of set construction. The club provides these artists with ample experience in model building before introducing difficult work essential to the school plays.

The students spend most of their club time designing and building sets, painting scenery, and producing scenic properties for all of the school's theatrical presentations. In *"George Washington Slept Here,"* the group created two different sets of walls to show the total rehabilitation of one room. The cast of *"Carnaval!"*, a musical which opens on a barren sage, carried out both processes of construction and destruction before the audience. The two productions represented a designer's holiday, and a construction crew's nightmare.

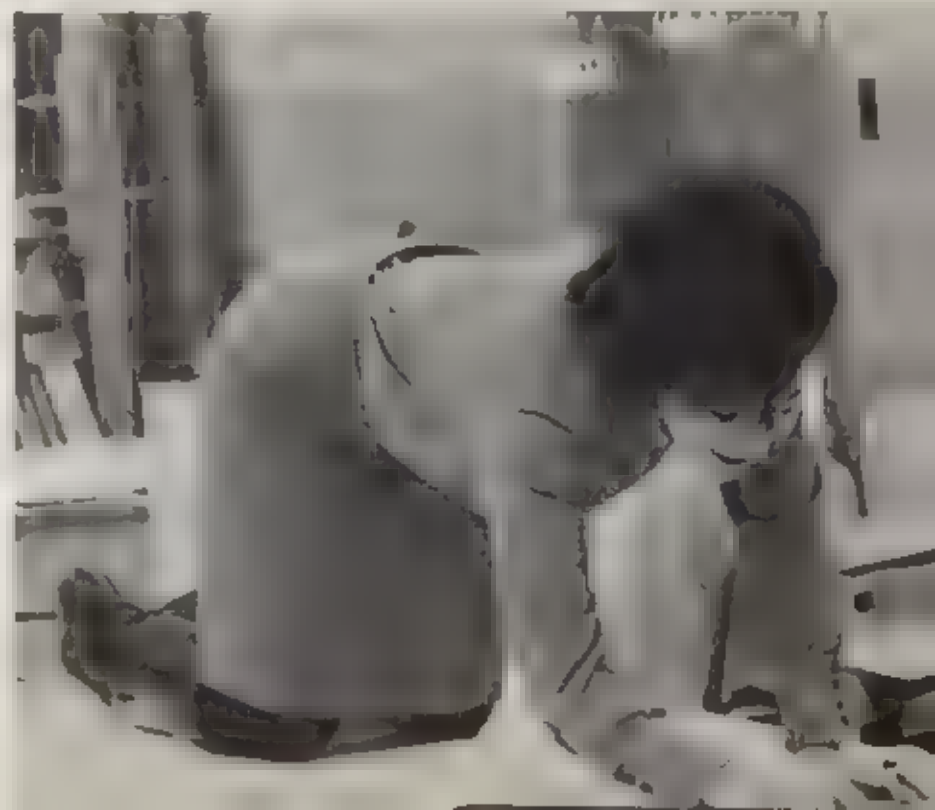

"Back in the jar, Mr. Simms, you old rebel." Randi Weissman, Barbara Prickett, Janet Steuteville, and Vicki Revell examine an exotic creation.

Bottom Row: J. Steuteville, S. Cutler, M. Baseman, J. Katz, R. Weissman, M. Karloff. Second Row: B. Kanes, E. Ellis, E. Bell, V. Revell, B. Prickett, E. Nagy. Third Row: C. Ashton, S. Myers, D. Lipshutz, W. Gellette.

The Playgoers of Cheltenham participate enthusiastically in a form of the arts which found its root on an ancient Greek stage. Under the aegis of Mrs. Marion Black, club members explore the various facets of the drama. Through trips to the Theatre of the Living Arts and observing an Old Vic performance, the Playgoers have acquired a taste of theater in and around Philadelphia. Weekly club meetings often include recitations of drama, listening to Broadway hits, and discussions of recent developments in the theater. All aid the students in enlarging their understanding of the playwright's technique. The Playgoers carry on Cheltenham's tradition of love for the theater by actively observing and taking part in dramatic productions.

Once a week a group of agile and enthusiastic Cheltenham girls meets for a period of folk dancing. The club, under the watchful eye of Mrs. Susan Apollon, is completely programmed and instructed by its members. Pearl Elias and Ellen Jenkins lead the dancers in learning and perfecting new step patterns.

The basic steps of folk dancing, including the "grapevine," "yemenite," and "cherlizea," have been mastered by all of the club members. The girls have gradually worked their way from elementary dances, like the "Troike" and "Avir Lanir Yayim Yayin," to extremely intricate patterns such as "Al Tira" and "Hacktana."

The folk dancing club has had a very successful first year. The dancers have enjoyed a creative and well-disciplined experience. The study of folk steps has introduced the girls to the music and customs of other lands. All participants derived much pleasure and satisfaction from this club

"Is this how they do it in the old country?" Judy Menduke and Wendy Axelroth folk around.

Jo Anne Epps' embroidery keeps her in stitches

The Sewing Club, led by Mrs. Emily Engle, provides an excellent opportunity for each interested girl to develop her creative skills with a needle and thread. Membership is open to students from all classes, but the group must be limited in size to insure the necessary individual instruction which is provided. Beginners learn the fundamentals of sewing, and may attempt to make a basic garment. More advanced students work at their own speed and capacities. To the tune of whirring sewing machines, seamstresses busy themselves with stitching everything from simple aprons to detailed suits. Club members also take advantage of the time to alter and mend clothing. An informal and relaxed atmosphere makes the Sewing Club a pleasant as well as educational experience for Cheltenham girls who are anxious to improve their domestic abilities.

Smile! Cheltenham is under surveillance this year. The watchful eyes of a group of enthusiastic photographers may catch you unaware. Toting their own complex sets of cameras and light meters, members of the Photography Club meet each week to learn more about their hobby. Sponsor Mr. Emmanuel Kramer formally instructs his interested students. Important techniques in picture-taking and print-making are described and discussed during the club session. Photography students often submit original work to Mr. Kramer for criticism and helpful hints. Besides enjoying themselves while snapping pictures and developing them on their own, many aspiring photographers serve the school by devoting their time and skill to Cheltenham's publications.

"Personally, I like cubes a lot better." Buzzy Blumenthal scrutinizes Richard Kaliner's masterpiece.

Under the guidance of Mr. Robert A. Acker, the members of Cheltenham High School's Audio-Visual Aids Club master the techniques of employing, maintaining, and repairing visual aids equipment. The club not only enriches the education of the students involved, but also prepares the club members to provide a vital service to the school.

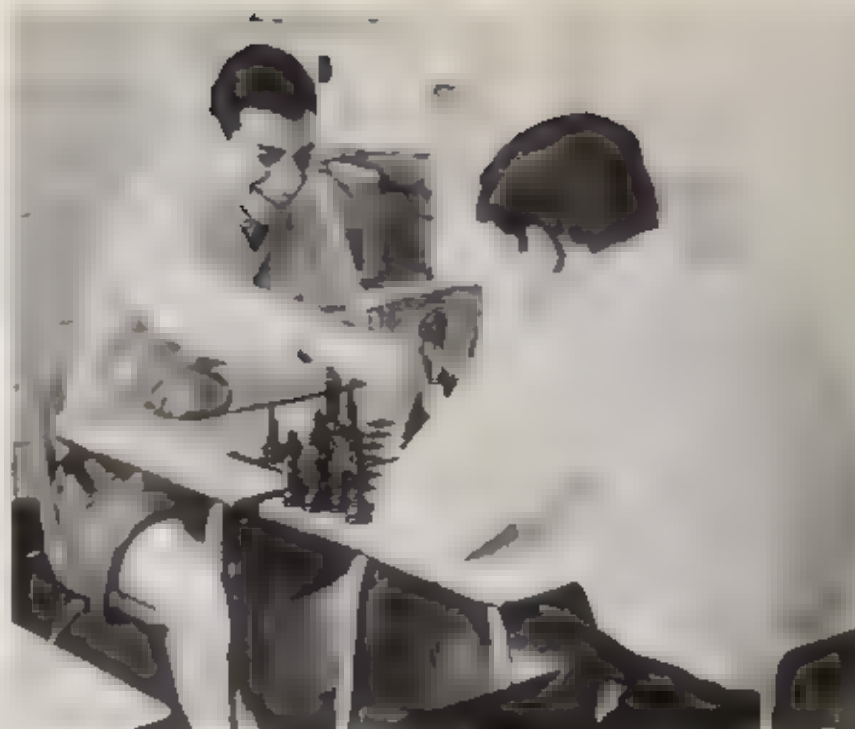

The concepts of an academic curriculum, the customs of a foreign culture, and the maxims of health education are brought to life through sound and sight experiences. The variety of equipment which is available to Cheltenham classes includes sound, filmstrip and slide projections, tape recorders, record players, and opaque projectors.

The club members assist the teachers in the technological conveniences which embellish any learning experience. In addition, Mr. Acker and the students familiar with the audio-visual aid equipment have acquainted the faculty members with the use and care of technical aids.

Mastery of the difficult game of chess can be achieved only through regular practice with sharp competition. The Chess Club, directed by Mr. Dale Sander, provides considerable chess experience for its astute members. By establishing a ladder system of competition, the chess players are afforded the opportunity of competing with opposition of equal calibre.

The five highest ranked tacticians compete in weekly matches with one of the five other schools in the North Suburban Chess League. Grueling tournaments requiring utmost skill and deep concentration are staged as club members combat proficient strategists from these schools. After a two-hour contention, victory may be decided by a pawn capture in the endgame which provides a harrowing experience for the veteran chess player.

Chess offers the student an opportunity to exhibit his style and to employ the rational elements of his intellect. It dares even the most logical mind to analyze a position, to formulate a plan of attack, and to determine the best move to make under a given circumstance.

Second Row: M. Cichetti, R. Kropper, A. Lecoff, D. Pefersen, R. Caplan, D. Pitman, G. Bernstein, J. White, P. Silver

A *sesterce* was the everyday coin of the realm back in the days when the Roman coliseum was the nearest thing to a modern domed stadium. This coin has long since been superseded but is still prized by a numismatist, that breed of mortal which spends its spare time collecting coins. Philatelists, on the other hand, collect stamps, the more recent invention of Victorian England. Cheltenham's own numismatists and philatelists have organized themselves into the Stamp and Coin Club, a group which meets once a week to trade both the wares and gossip of the stamp and coin worlds. Some instruction is given, but most time is dedicated to informal discussion. Some club members specialize in such diverse areas as proof sets, Canadian pennies, or U.N. issues, but most are interested in any issue of the last 200 years.

"Resolved that United States foreign aid should be limited to non-military assistance," is the framework for all the complex logic and rhetoric that go into a year of varsity debating matches. Although each debator was required to work with this basic theme, there are as many different arguments in a varsity meet as there are different buildings in a well-designed community. It is up to the debator to find just the right words to elaborate his argument without obscuring it, just as the architect must blend each element in his structure with the harmonious whole. Cheltenham's Debating Club provides practice and helpful criticism for the aspiring debator, who will in time improve his skills and style to the point where he can take a place on Cheltenham's varsity debating team.

"Same to you, fella!" John Cohn makes a point as Donna Oppenheim looks on.

Bottom Row: B. Roseman, D. Oppenheim, K. Jaffe, D. Berinson, B. Cohen, J. Axelroth, J. Karpf, J. Wolfman, A. Mills. Second Row: W. Spiegel, J. Cohn, T. Busdorff, B. Schwartz, B. Kamison, J. Fagan, M. Dishler, R. Snyder.

"Peek-a-boo!" Joe Koenig pays strict attention to current events discussion.

Events occur and reverberate in a moment's time. Nations are born, leaders ousted, ancient systems reorganized. Our population and our problems are growing each second. Modern communications and technology provide us with the means both to be aware of the difficulties we face and to alleviate them. Members of Cheltenham's Current Events Club are keenly interested in the world around them. Led by Mrs. Judy Maish, the group functions as a seminar for discussion of contemporary affairs. Students are encouraged to take full part in organized debates which concern local, state, national, and international affairs. They endeavor to keep abreast of the news, to understand subtle implications of world happenings, and to formulate educated opinions. By discussing politics, economics, diplomacy, and social questions, the Current Events Club members fulfill the requirement that a good citizen be an informed citizen.

A new addition to the club activities scheduled for this year is the Student Employment Service Club. The purpose of the club is to make available to students the information received from local employers who desire student help during the school year. Part-time jobs are made available to those students who have filed the application drawn up by the Employment Club. The members of the club match the job applications with those jobs that are available. Students are then notified of the job opportunity and proceed on their own.

The placement of summer jobs is different from the placement of part-time jobs. For summer jobs the club members correspond with companies, day camps, and department stores. These businesses are requested to answer a questionnaire and return it to the school. Notices of the jobs are posted on a bulletin board so the students may see what jobs are available and how and where they may apply for them

"I hear there are some great opportunities in the space program."
Jeff Rudnick and Nancy Edelson counsel Skip Rockower on possible future employment.

Senior Guidance members reflect problems of higher education.

Progressing to higher education from high school has become an increasingly important and complicated procedure in recent years. Cheltenham has organized a new system of keeping students informed about college and career opportunities through the Senior Guidance Club.

The club consists of one representative from each senior homeroom, usually the homeroom secretary. Under the direction of Guidance Counselor Mrs. Emille Gaither, the students hold discussions and ask questions. They then relay pertinent information to their own homerooms by conveying news of scholarships or announcing college visits.

An important goal of this year's Guidance Club was to prepare helpful information for juniors. Club members viewed filmstrips and decided which films would be most informative. The seniors organized a set of questions and answers concerning college admissions, policies, interviews, early decision and test requirements. A member of the club visited each junior homeroom to answer any further questions.

The Science Research Club gives students an opportunity to pursue advanced topics in physics, chemistry, and biology. This year, the club is subdivided into two groups, each dealing with an original experiment. The first involves three students and deals with gas chromatography. The second, sponsored by the American Chemical Society in conjunction with the University of Pennsylvania, deals with the use of spectrophotometry in determining the structure of an unknown molecule. Both projects require extensive research in the lab and in the library. The results will be reported in final form upon the completion of the experiments. The second project will be reviewed by the American Chemical Society, and the students involved will be guests at the society's annual meeting in the spring, when they will present their findings. The projects are continuous and will hopefully be completed in the spring of 1968.

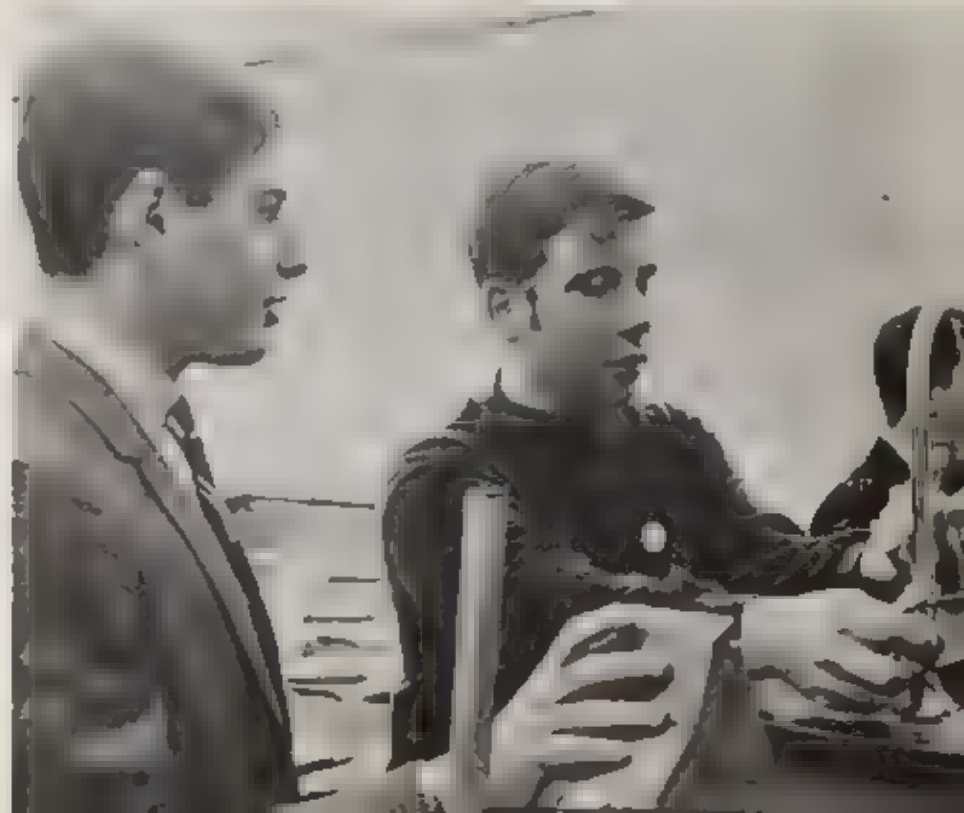

"Does this have UHF, too?" Bob Karp seeks a change from his routine experimentation

Members of the Civil Defense Club define and discuss the issues and problems involved in the safe survival of our civilization. They investigate the history of civil defense in America as well as the present legal provisions for aid and service programs to vast communities in case of destruction by war or disaster.

Recognizing how important it is that each citizen understand the personal part he can play in alleviating a public threat, sponsor Mr. Paul LaMorgia guides his club members to become familiar with the actual civil defense problems of present-day society. Mr. LaMorgia has planned enlightening field trips for the club.

The prominent issue facing the Civil Defense Club members this year has been that of fallout pollution. The age of the atomic bomb has placed growing personal civil responsibilities on each member of modern society to preserve the security and healthful environment of his world.

Magical musical charms Cheltenham

"Love makes the world go 'round . . . Somebody soon will love you, if no one loves you now." Playing his concertina, Jacquot (David Gorin) wanders through the dawn onto a pleasant French meadow. Behind him, B. F. Schlegel (Peter Aucott) is leading a procession of jugglers, strongmen, and acrobats. As the sun slowly rises, the Roustabouts set up the Grand Imperial Cirque de Paris and the Incomparable Rosalie (Judy Leventhal) begins to belt out "Direct from Vienna." "Carnival!" has come to town.

After working since early January for two mid-April performances, the cast and crew of Cheltenham's "Carnival!" provided packed audiences an evening that was both delightful and dramatic. "Carnival!" is an unusual musical. It furnishes all the tuneful excitement that audiences have come to expect from American Musical Theater. In numbers like "Yes, My Heart" and "Beautiful Candy" the show manifests the pageantry of a circus with its magic acts, puppetry, and dazzling dances. But "Carnival!" adds its own dimension, for it is also the touching story of the ingenuous Lili (Wendy Kelley) who comes to the carnival looking for a job. Caught between the dashing, miraculous magician Marco (Art Pelberg) and the bitter but candid puppeteer Paul (Bob Dumin), Lili experiences both love and hate for the first time, and grows up in the process.

Many people worked long hours to make "Carnival!" a success. Mr. Thomas Stretton's skillful direction inspired the originality and sparkle evident throughout the show. Miss Kay Dubie coached and conducted the singing and orchestration, which beautifully accompanied the dramatic

activity. Business, publicity, scenic design, properties, costumes, and make-up committees were ably supervised by Mrs. Rosalie Hurwitz, Mrs. Sarah Maissel, Mr. James Rubillo, Mr. Richard Green and Mr. Robert Acker. The choreography, by Susan Myers, brilliantly demonstrated the verve and energy displayed by all the members of the cast. "Carnival!" required precise coordination of the many facets of a large production, as well as the enthusiastic dedication of the people who made it enchanting entertainment.

Art Pelberg leads the Roustabouts in a rousing rendition of "Sword, Rose and Cape."

"What do you say we make a stop in Florida?" Terry Neff, Jeff Blumenthal, and Bob Weinman comment on the natural resources of the Sunshine State

Friendship and fun are two of the many happy results of Cheltenham's traditional Domestic Exchange program. Thirty Cheltenham juniors took part in the Exchange with thirty students from Lakewood, Colorado. Each group had the chance to be gracious hosts as well as appreciative guests. The Exchangees went toboggoning in Colorado, visited historical sites in Philadelphia, attended each other's classes, and participated in the many activities each school had planned. The Domestic Exchange Program has been a wonderful success. Members of both exchange groups developed close and lasting friendships.

Chelts tie Radnor in opening thriller

"Look out, Goldilocks. Here come the three bears." Tom Dominick, John Johnson, and John DeLong race for a loose ball against Radnor.

Bubba straight-arms opponent for good yardage

A new season—a new coach—a new team—these signaled the anticipated opening of the first C.H.S. game against Radnor. Under Coach Harry Hollihan's direction, the Panthers managed to tie Radnor 20-20. Radnor opened the scoring with a touchdown and conversion, but Bubba Washington quickly countered with a sixty-three yard scoring run. Chris Perry scrambled nineteen yards for another touchdown before the half ended. In the third quarter, Radnor exploded for a quick score, but the Panthers bounced back on a Pelberg to Washington T.D. pass. With minutes left, Radnor posted their third tally and would have upset the Panthers but for the efforts of Larry Lieberher, who blocked the conversion attempt.

The first half of the game with Norristown was a defensive battle. In the second half, two Cheltenham mishaps proved costly, as a blocked punt and a fumble gave the opposition thirteen points. An interception by Bill Blum put Cheltenham on the scoreboard, but two Norristown tallies put the game out of reach at 26-7.

At Plymouth-Whitemarsh, the Panthers again fell prey to costly mishaps. After the Colonials completed a forty-eight yard touchdown toss in the first quarter, the Panthers rallied in the second period. But fumbles twice thwarted the Chelts. The Panthers fumbled again in the second half, inside the ten-yard line, and once again the Colonials capitalized. The score remained at 13-0 when the addition of Art Pelberg to the secondary finally stymied the Colonial aerial game. Bubba Washington collected 134 yards in the losing effort.

Methacton dealt the Panthers their only home loss. The game was scoreless until the second period when Methacton scored on a six-yard quarterback option. The Spartans got a second tally at the end of the third period.

Cheltenham upsets league leader

"At least you could have gotten my feet in the picture" Warren Veroin displays his dismay over the absence of his famed golden toe.

After gaining twelve yards, Tom Reifsnnyder is stopped by three tacklers at Methacton

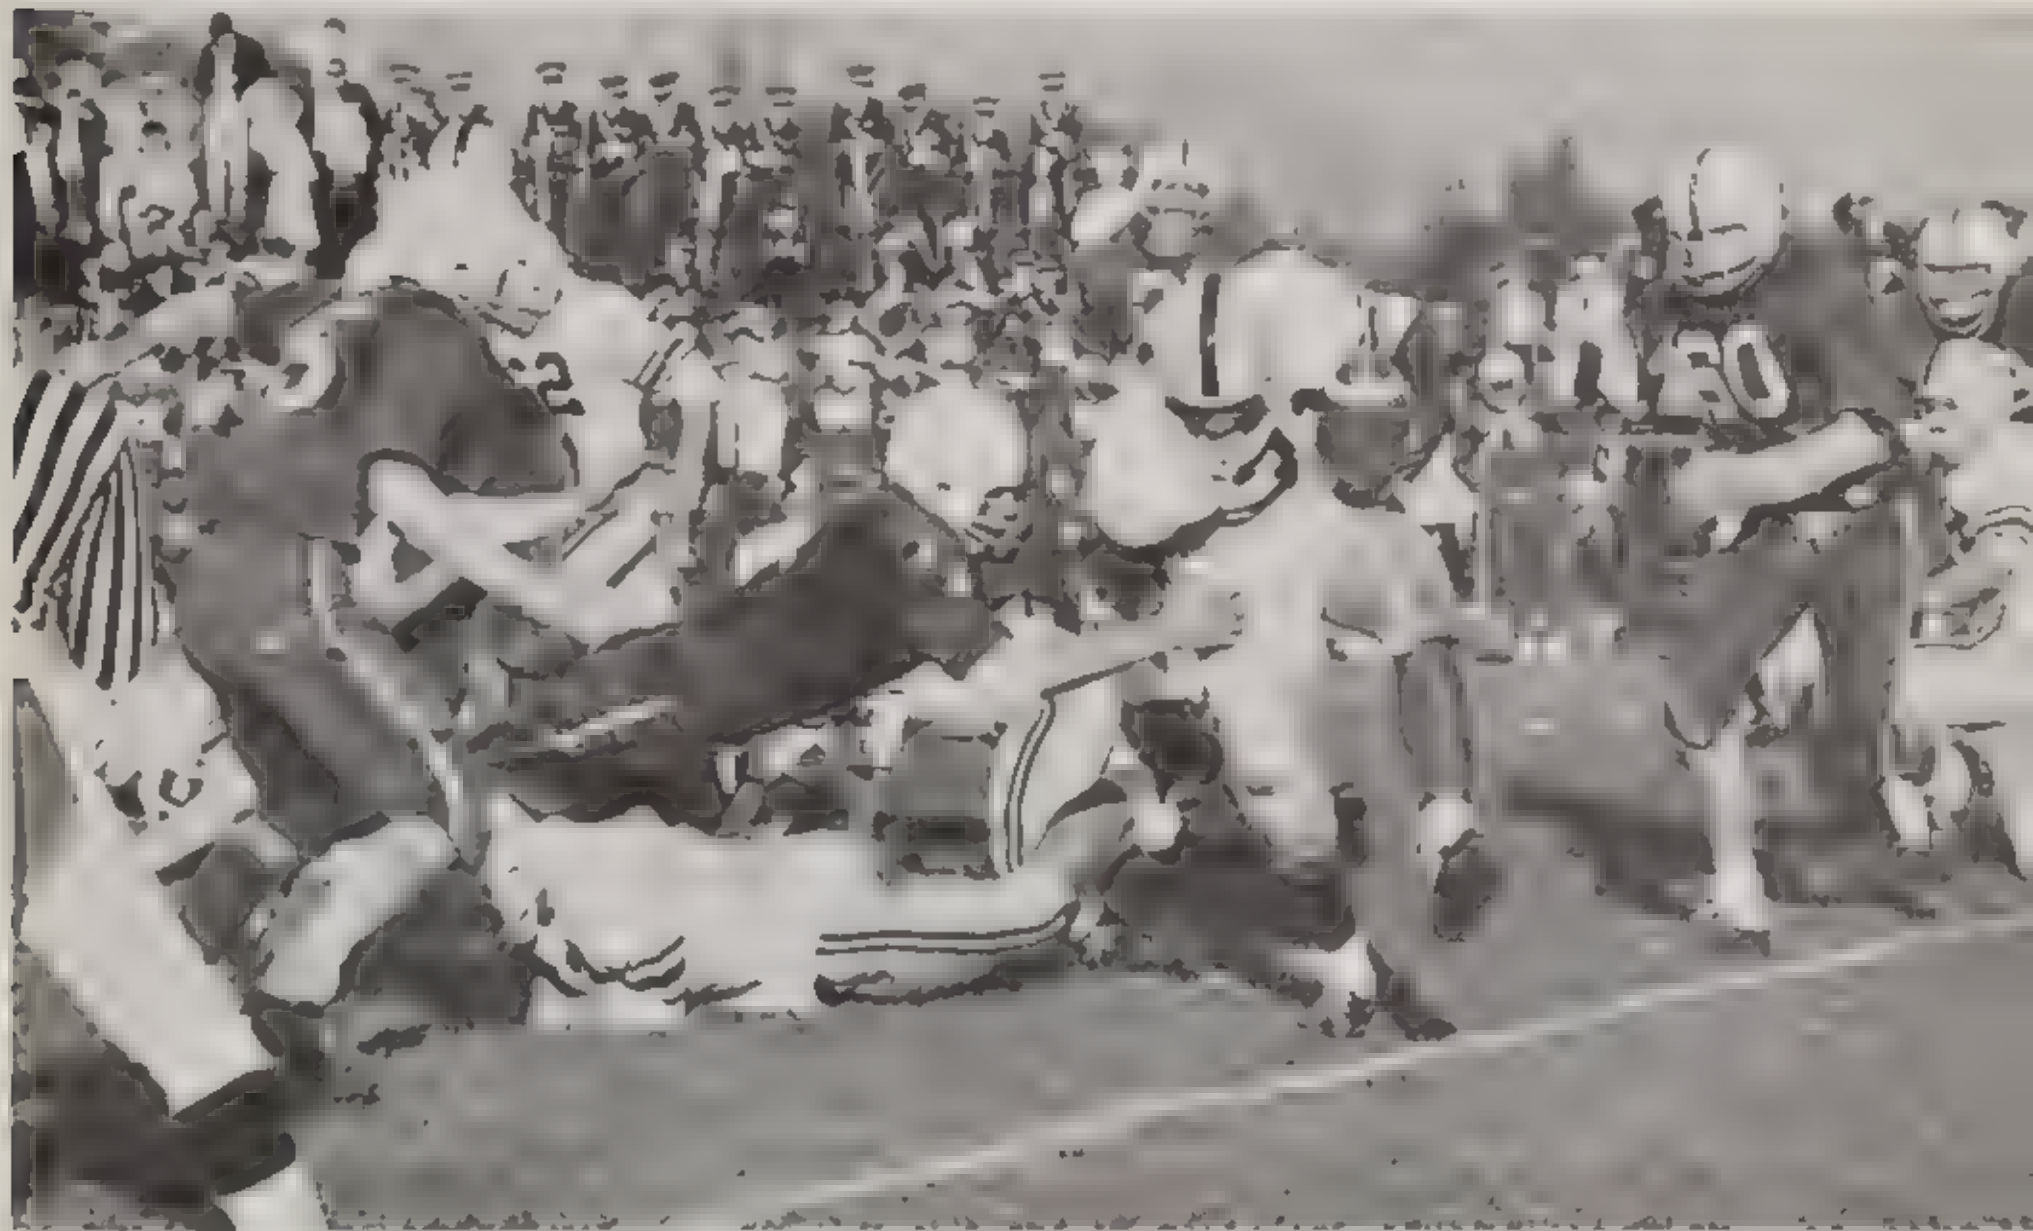

During the final minute of play with Methacton, the Panthers drove ninety yards for a T.D., but Methacton picked up the attempted on-sides kick and ran out the clock with the score 13-7.

Next, Cheltenham upset the previously unbeaten Aces of Lower Merion. The Chelts dominated all aspects of the game. Junior sensation Tom Reifsnyder fired the Panther passing attack; a superb defensive secondary curtailed the Aces' passing. Cheltenham's first score came early in the second quarter when Russ Alden intercepted a Lower Merion pass and sprinted

sixty-eight yards to set up the T.D. Minutes later the Chelts scored again as halfback Benny Dempsy raced twenty yards around right end. There was little scoring in the second half; but, in the waning moments of the game, the Panthers ran the score to 21-6 on Mark Mann's interception.

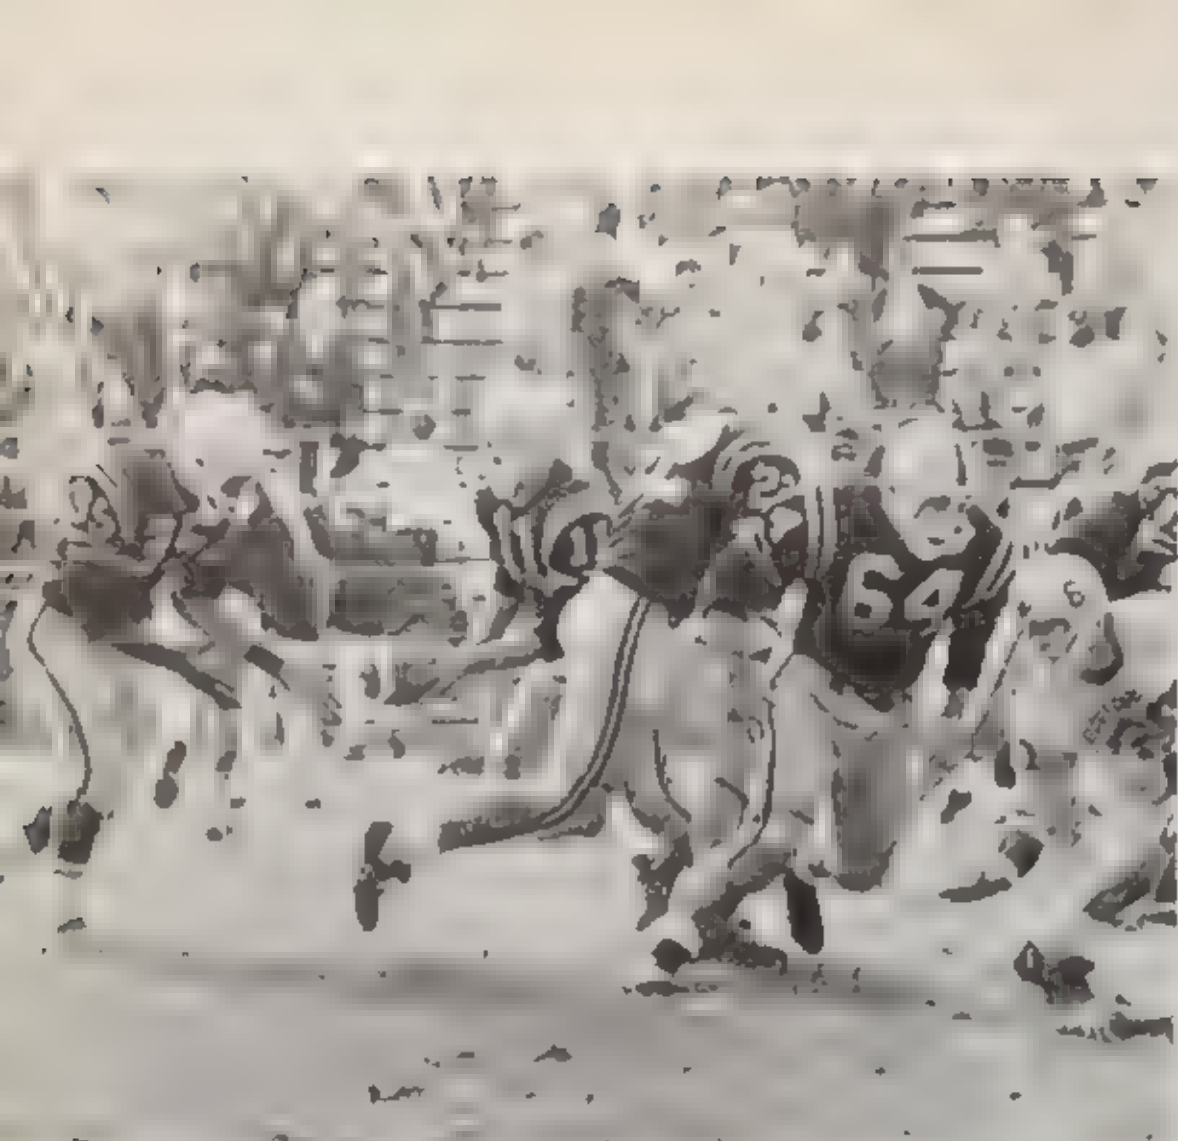

Against Upper Merion, the offense faltered and an excellent defense could not stem the tide. Upper Merion scored early in the second quarter. Cheltenham countered as fullback Bubba Washington ran around right end for the touchdown.

Bubba Washington initiates the bunny hop with Lower Merion.

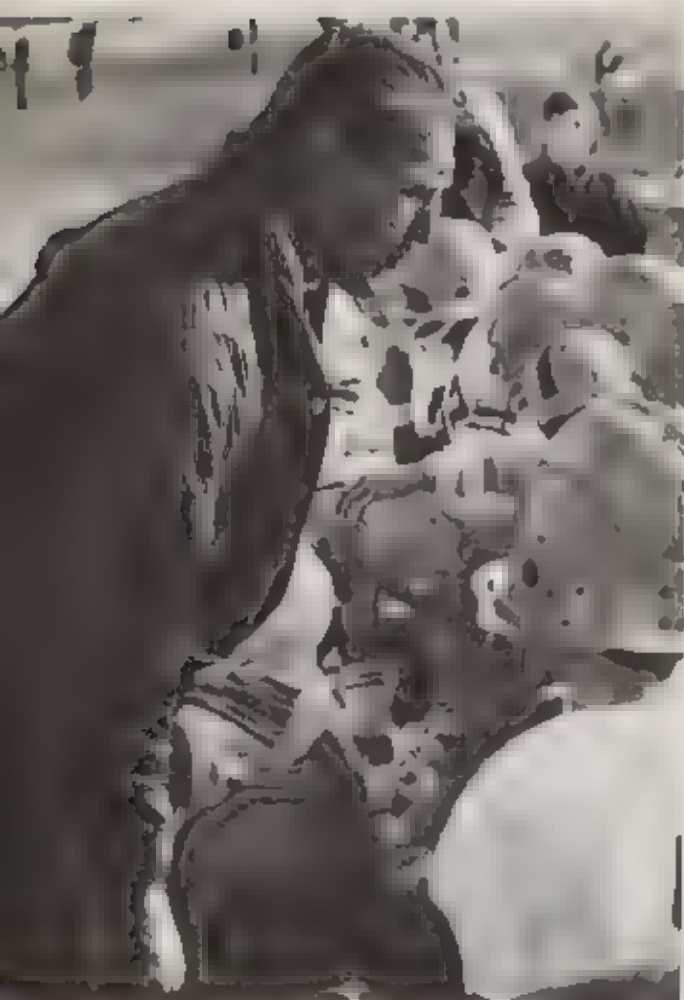

"We won! We won!" Cheltenham fans swarm around the football team after their victory over top-ranked Lower Merion.

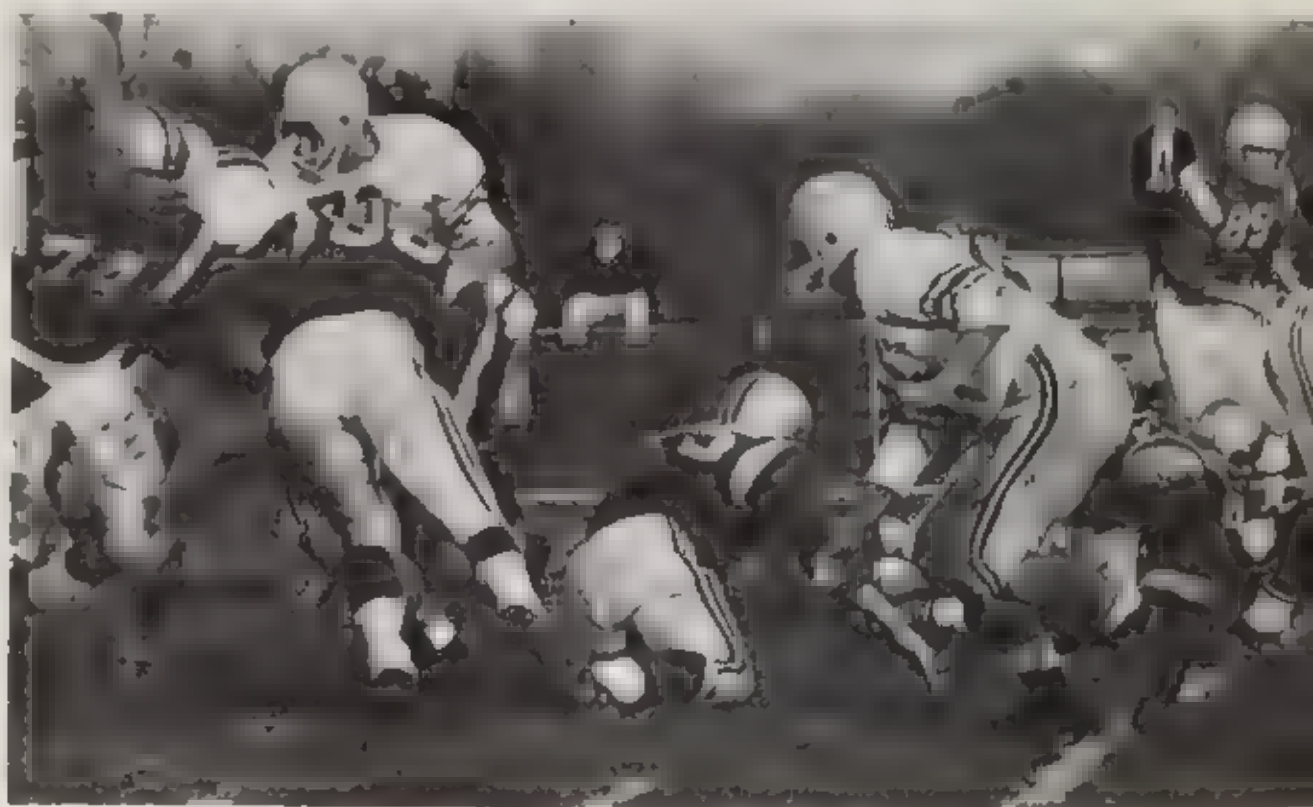

Art Felberg pitches out to Lefty Shaw as Tom Dominick blocks, in game with Upper Merion.

"Ten and two, thumb on the horn" Coach Mebelich expounds upon his theory of Driver Education

"4cX #%&7!??" Upper Dublin defense is bewildered by the chicanery of the Cheltenham offense.

Ecstasy!"

"Pass or run?" Reifsnnyder on the spot.

In the closing moments of the third quarter, a punt by Chris Perry was blocked, and Merion made a touchdown. The conversion attempt succeeded and the final score was 13-6.

The final home game of the season proved that the Panthers' record was not indicative of their manner of play. Both the offense and the defense jelled as the Panthers routed Upper Dublin 18-6. The defense was led by John Johnson, Russ Alden, Len Pelullo, Art Pelberg, Bernie D'Angelo and Larry Lieberher. Pelberg showed his great versatility by intercepting two passes on defense and running for seventy-seven yards on offense.

The Ghosts dealt the Panthers a disastrous defeat in the traditional clash at Abington. The Chelts, demoralized by a fumble on the first play of the game, could never mount a sustained offensive. Neither could they contain the running and passing attack of the Ghosts. The Chelts just couldn't start their powerful football machine in the frigid cold of Abington Stadium. The Abington game was the dismal conclusion to an otherwise interesting year.

Several Cheltenham players received post-season honors. Johnson, Alden, Washington and Pelullo won honorable mention at the All-Suburban Sports Banquet and Warren Verbin was cited as Suburbia's most courageous athlete. Johnson and Alden also won MVP trophies for the Abington game, and Alden received the coveted Holden Award for football.

Harriers grind through rough and rugged season

The CHS Cross-Country team got off to a fast start, and made up for a mid-season slump with a final energetic spurt in its last match. Neal Little and Michael Goldman led the pack along with Junior Mitchell Weintraub. Mr. Hoffman guided his men to an opening game victory over Lower Merion (25-30). The team then beat Radnor (27-32) and edged Norristown (27-29). The Chelts lost their next five, however, to Plymouth-Whitemarsh (25-36), Abington (18-41), Upper Merion (21-39), Upper Dublin (15-46), and Ben Salem (15-50). The Harriers came on strong at the finish to crush the Cardinals of Methacton (25-39). Holden Award winner Neal Little was cited by the *Evening Bulletin* as Cheltenham's scholar-athlete

"It's shorter this way fellas." Holden Award winner Neal Little takes a little shortcut

Reconstructed hockey squad fights defensive battles

Sandy Wood crosses opponent on her way to the goal

Although the 1966 Squad cannot boast a winning season with a 1-6-2 record, it eventually toppled Methacton in a 1-0 shutout. Led by captain Sandy Wood, the girls started the season with two ties against Springfield (0-0) and Radnor (1-1). They then suffered a five-game losing streak but bounced back to grab their lone victory. Returning sophomores and juniors promise a winning team for next year.

"I think it fell out of a nest." Judy Hart forges past opponent in Radnor contest.

Frank Staub, Holden Award winner and receiver of the Coaches' Award for Suburban Soccer, races toward Lower Merion's goal

Mike Reisman steals the ball from Methacton wing and prepares to take it downfield

"I don't know, Ray I've seen nicer" Coach LaMorgia and Ray Shoemaker look over the field.

CHS places three on All-Suburban Soccer Team

Bottom Row: J. Spector, M. Reisman, A. Monheit, T. Heller, P. Tremain. First Row: F. Staub, S. Feld, J. Eisman, M. Fisher, Captain; R. Spiegel, D. Seltzer, R. Rock. Second Row: Mr. LaMorgia, Coach; G. Tabas, T. Neff, D. West, D. Block, M. Shaw, S. Sywulak, E. Blumberg, Mr. Trimble, Coach.

The varsity soccer squad, coached by Paul LaMorgia, was eager to duplicate last year's winning effort. A rainy September postponed the opening games though, and dampened the team's spirits.

The team's 2-6-3 record is a poor indication of the squad's ability; the boys lost three games by only one goal. The first game, a non-league game with Lincoln, resulted in a 1-1 tie. The team equaled Chestnut Hill Academy (2-2) and Upper Merion (1-1). CHS triumphed over Radnor (4-1) and Plymouth-Whitemarsh (3-1). Defeat was suffered at the hands of William-Tennant (2-1), Upper Dublin (1-0), Methacton (4-1), Norristown (3-0), Lower Merion (6-0), and Abington (1-0).

On the field, the team was led by halfbacks Frank Staub and Dan Seltzer. Fullback Robert Spiegel added an extra kick. Frank Staub received the Holden Award, all three boys were named to the All-Suburban Team. Recognition is also extended to captain Mulford Fisher, Robert Boyle, goalie David Block, Jerry Eisman, and Michael Reisman.

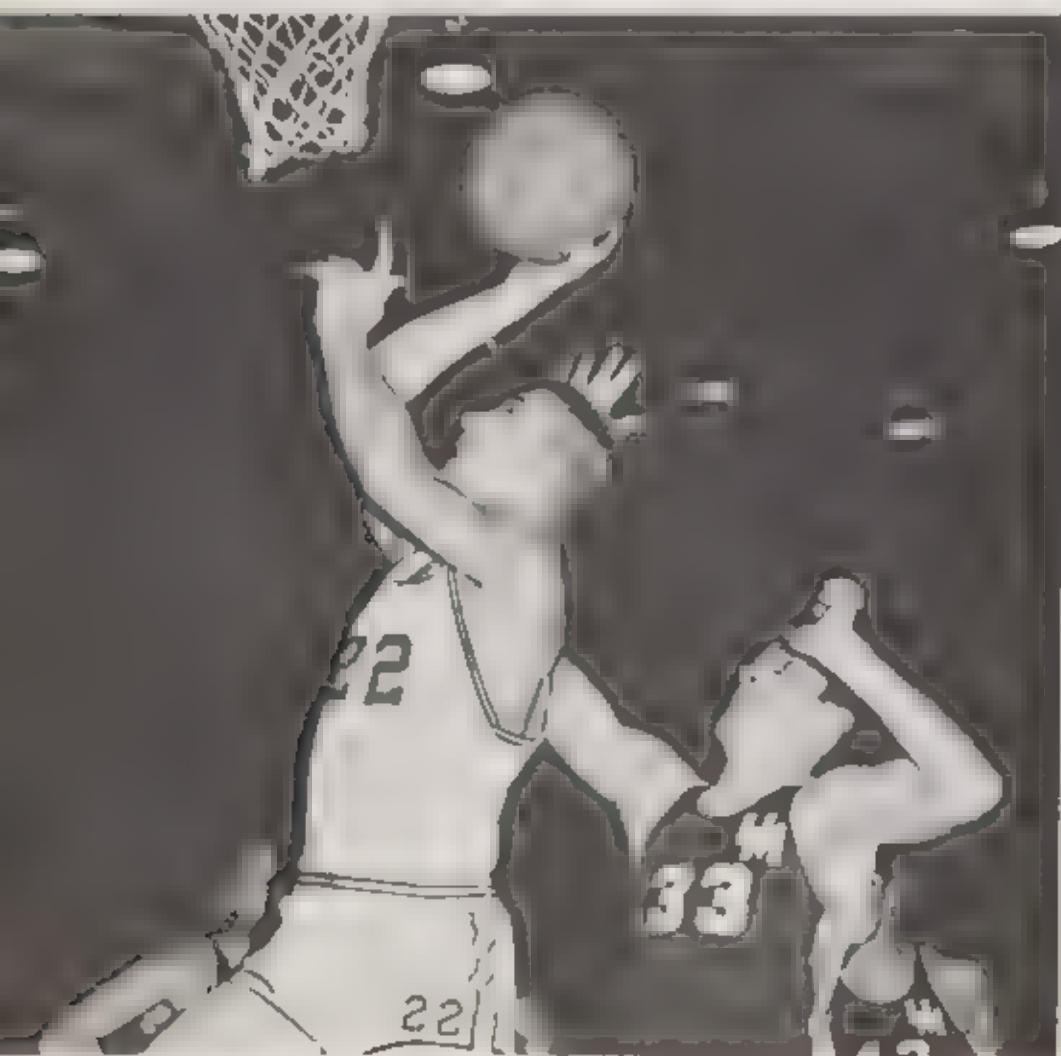

The junior varsity team, coached by Mr. Robert Trimble, finished with a record 5-5-2. Next season poses no problems for Mr. LaMorgia. He is receiving some outstanding booters, including Eric Blumberg and Terry Neff.

Plymouth-Whitemarsh fails to hinder the dexterous ball-handling of Ben Netanyahu.

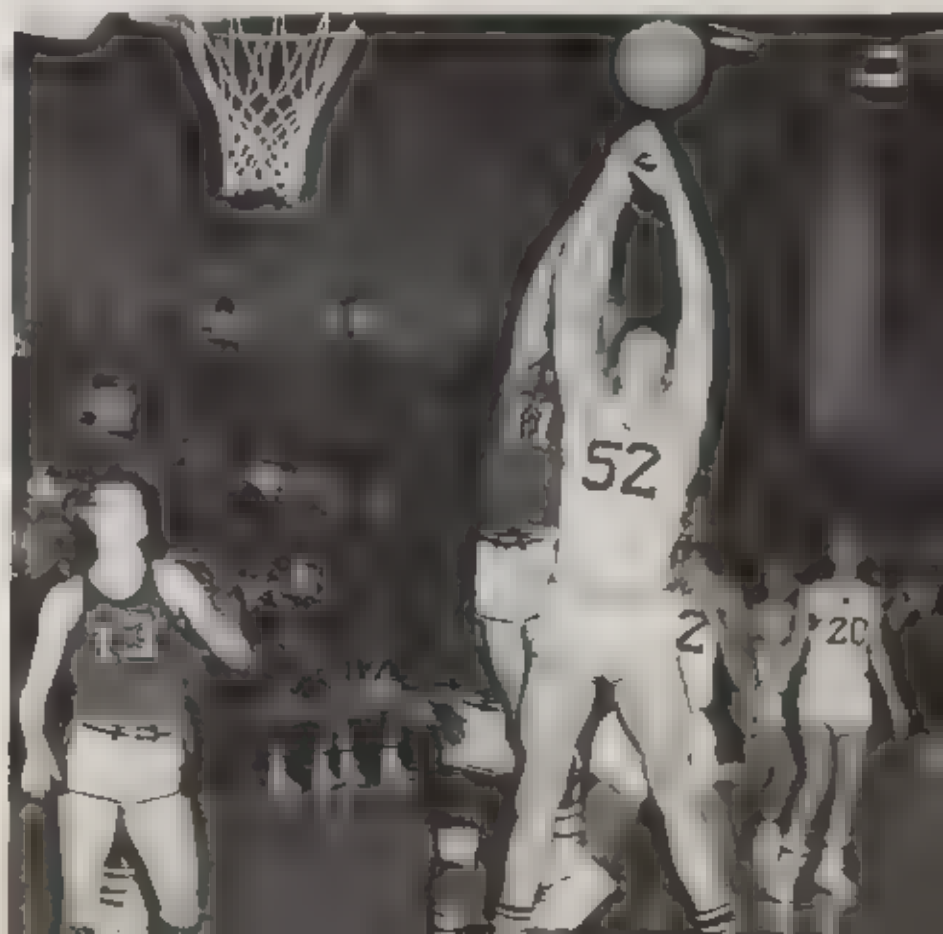

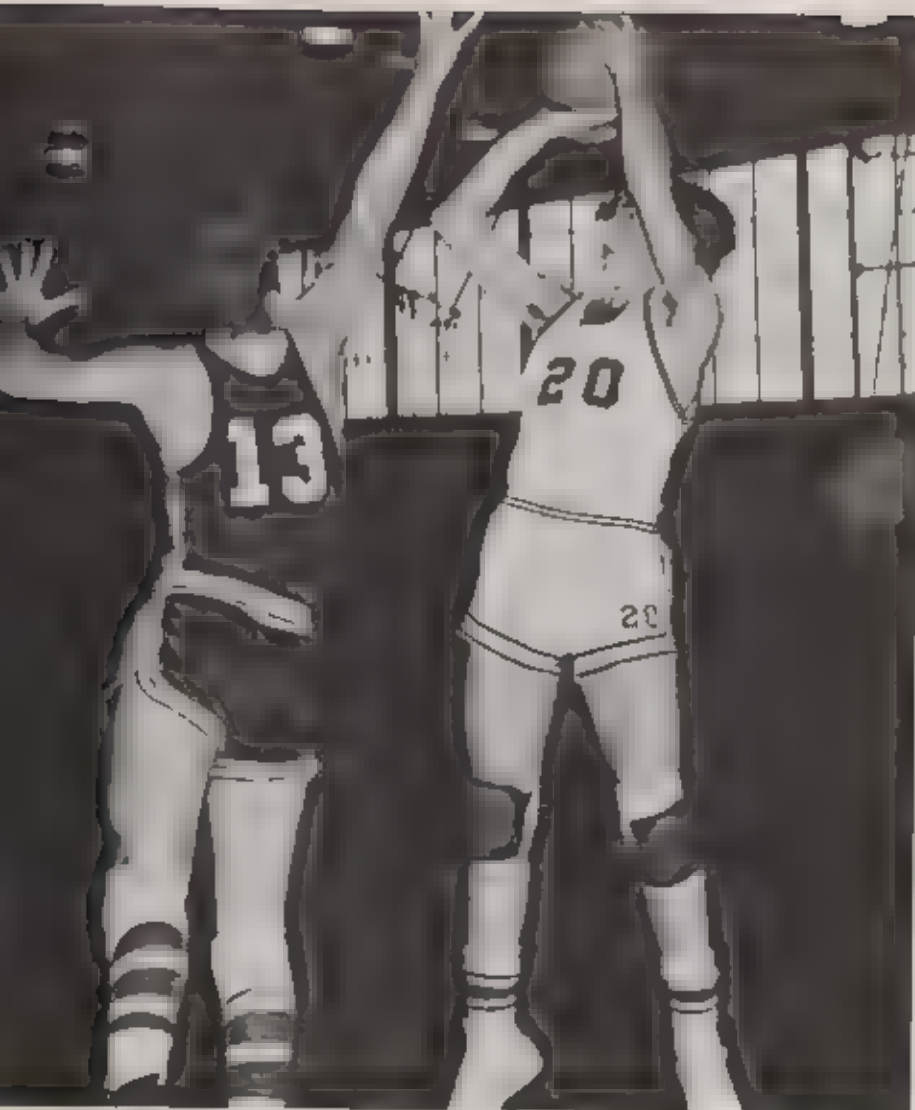

CHS Varsity Basketball Team. Bottom Row: G Warshafsky, Manager B Koffler D Kelberman B Haff Co-captain, R Raden Co-captain, J Sunshine, W Edminston, Manager. Second Row: S. Goldberg, Ball Boy; J Goldstein, C. Shechtman, C. Littlepage, J Johnson, E. Matzkin, Mr P. Westhead, Coach

B. Haff lays it up against Upper Merion

John Johnson performs a graceful pirouette as he dances for the ball.

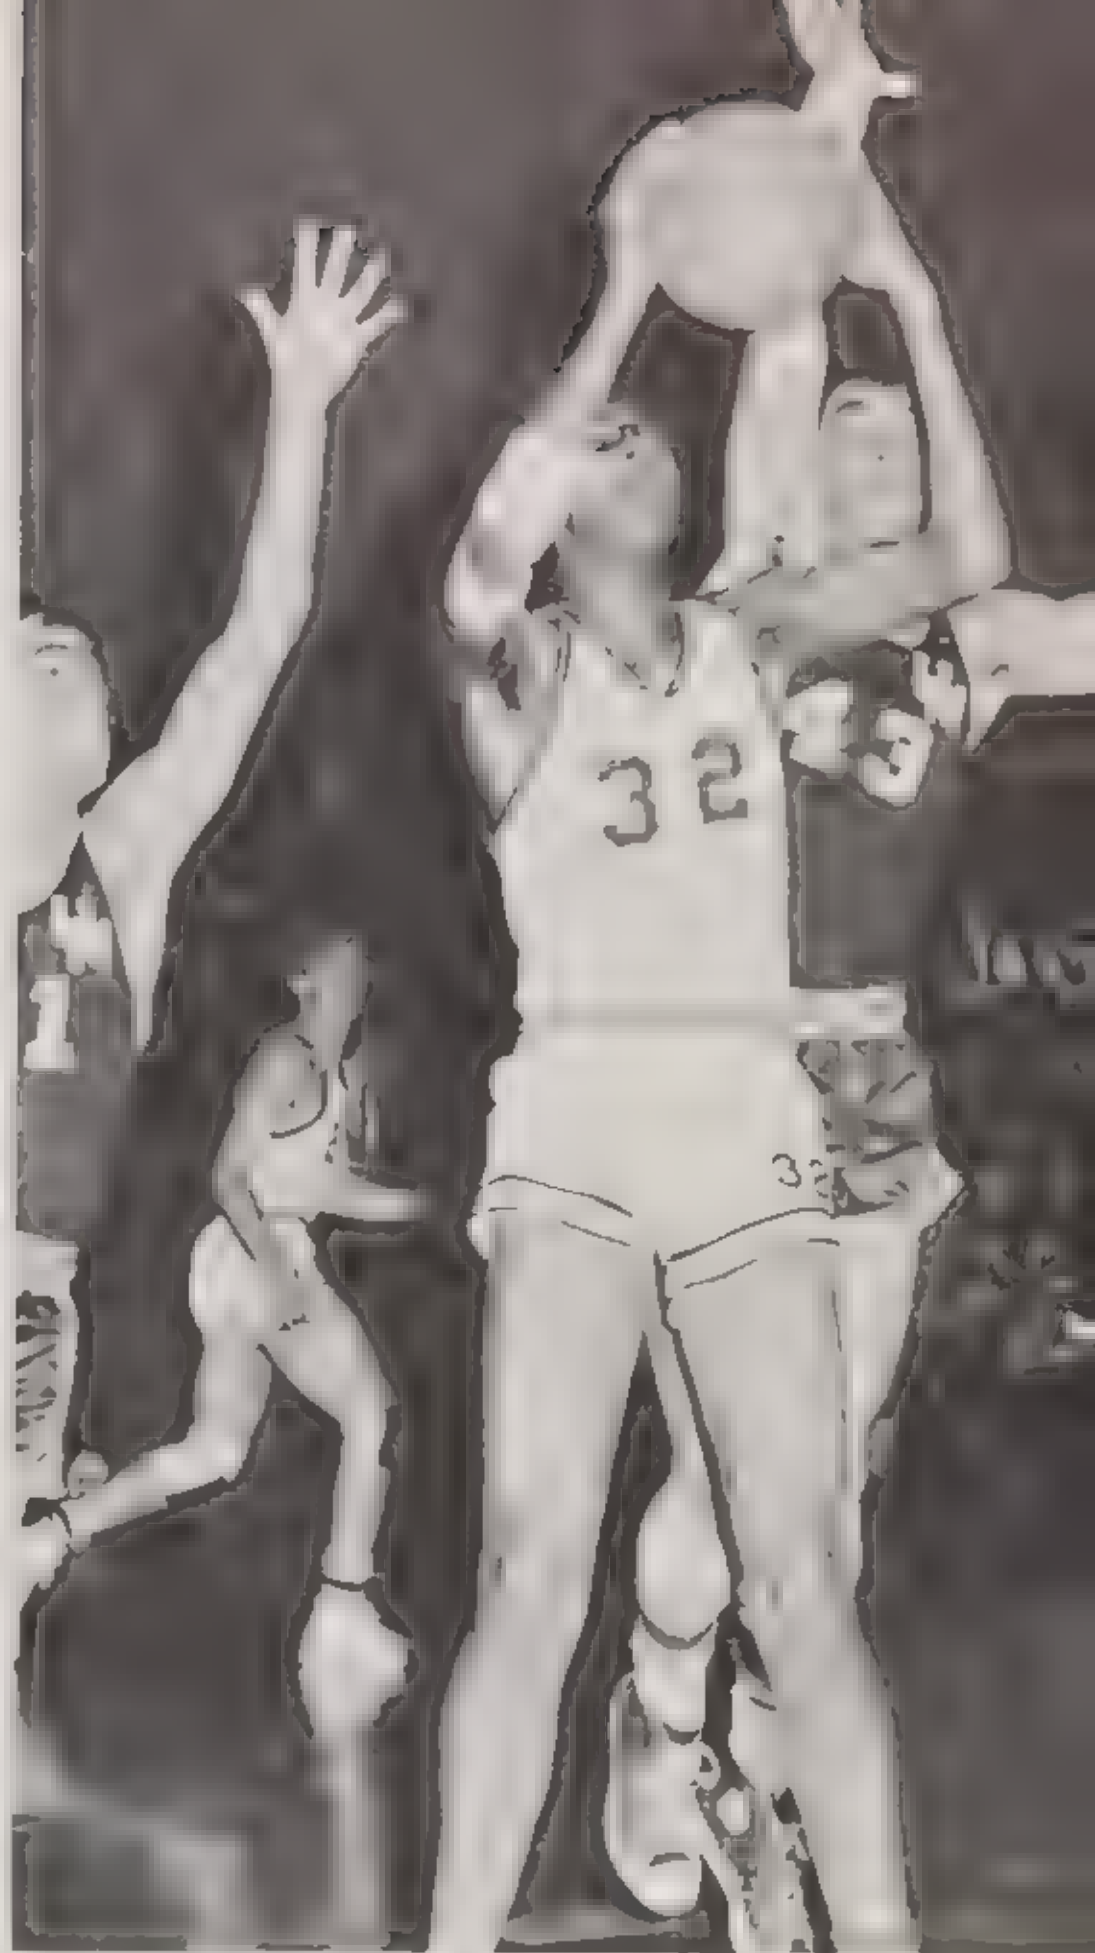

Rich Raden remains undaunted by efforts of opponent

The start of a new basketball season proved interesting to follow. Nobody knew quite what to expect, for the starting five consisted of four underclassmen and one senior. The five starters, Jeff Sunshine, Bill Haff, Craig Littlepage, Chuck Schechtman and Rich Raden, however, displayed a teamwork which placed them in contention for the Suburban One title.

The hoopsters began the season by crushing Lower Moreland 70-48. Craig Littlepage led all scorers with 28. In their next game, the Panthers crushed Dobbins 68-50. Following the perennial victory over Dobbins, the Chelts traveled to Ben Salen and won by a score of 80-47. High scorers were Bill Haff and Rich Raden with 26 and 18 points respectively. At Methacton the Chelts received first rate performances from Bill Haff and Jeff Sunshine, but Methacton's 62% shooting average proved too much as the Panthers bowed 76-71. Bouncing back valiantly, the Chelts buried Conestoga 64-51. In their next game, the Chelts dropped a 62-59 heart-breaker to Upper Dublin, despite a 21 point effort by Chuck Shechtman. The Chelts clobbered Radnor 72-58. Littlepage and Haff combined for 37 points. After Radnor, the Chelts nipped St. Thomas Moore 64-60. At Lower Merion, the Chelts gained a 67-54 victory. How-

Craig Littlepage gets off his soles as he pulls down a hard-fought-for rebound.

ever, in the next game with Plymouth-Whitemarsh, the basketballers were nipped 49-41. Hosting Upper Merion, the Chelts won 70-49. The scoring was well distributed among Littlepage, Haff, Shechtman and Raden

Young Chelt team fulfills potential

Cheltenham twice rips rival Abington

Bill Haff grabs rebound among three Upper Merion opponents

The game against Abington was never a contest as the Panthers romped 71-54. It was a great team effort, with scoring honors shared by Littlepage and Haff. Traveling to Conestoga, the Chelts pulled out a 58-54 victory on a 24-point surge in the third period. In the next game, the Panthers buried Methacton as Littlepage poured in 26 points. Riding on four straight wins, the Chelts were moving in on second place Upper Dublin. Littlepage and Shechtman led the Chelts to a 67-63 victory. The Chelts demolished the Norristown five by a score of 77-54 and then went on to win their seventh straight game by defeating Radnor 62-47.

Meeting the league-leading Colonials from Plymouth-Whitemarsh, the Chelts came within two points of an upset, but lost by a score of 43-41 on a basket made by the Colonials in the last three seconds of play. In a tremendous offensive effort, the Panthers defeated Upper Merion 87-68, as Shechtman scored 27 and Littlepage 23 points. Following this victory, the Chelts again turned back the Ghosts of Abington 72-56. It was the first time in fifteen years that the Panthers had dealt the Ghosts two defeats in one season. In their last game, the Panthers clipped the aces of Lower Merion 76-67. Littlepage had 16 points and Shechtman and Haff both contributed 21 points.

The outlook for next year's squad is exceptionally bright since Holden Award winner Jeff Sunshine is the only loss from the starting lineup.

"All of a sudden I feel a draft." Barry Koffler crashes the boards as Craig Littlepage "boogaloos."

Chuck Schectman is all alone and holds his own.

Norristown player gapes at deftness of Barry Kofler as he scores two points.

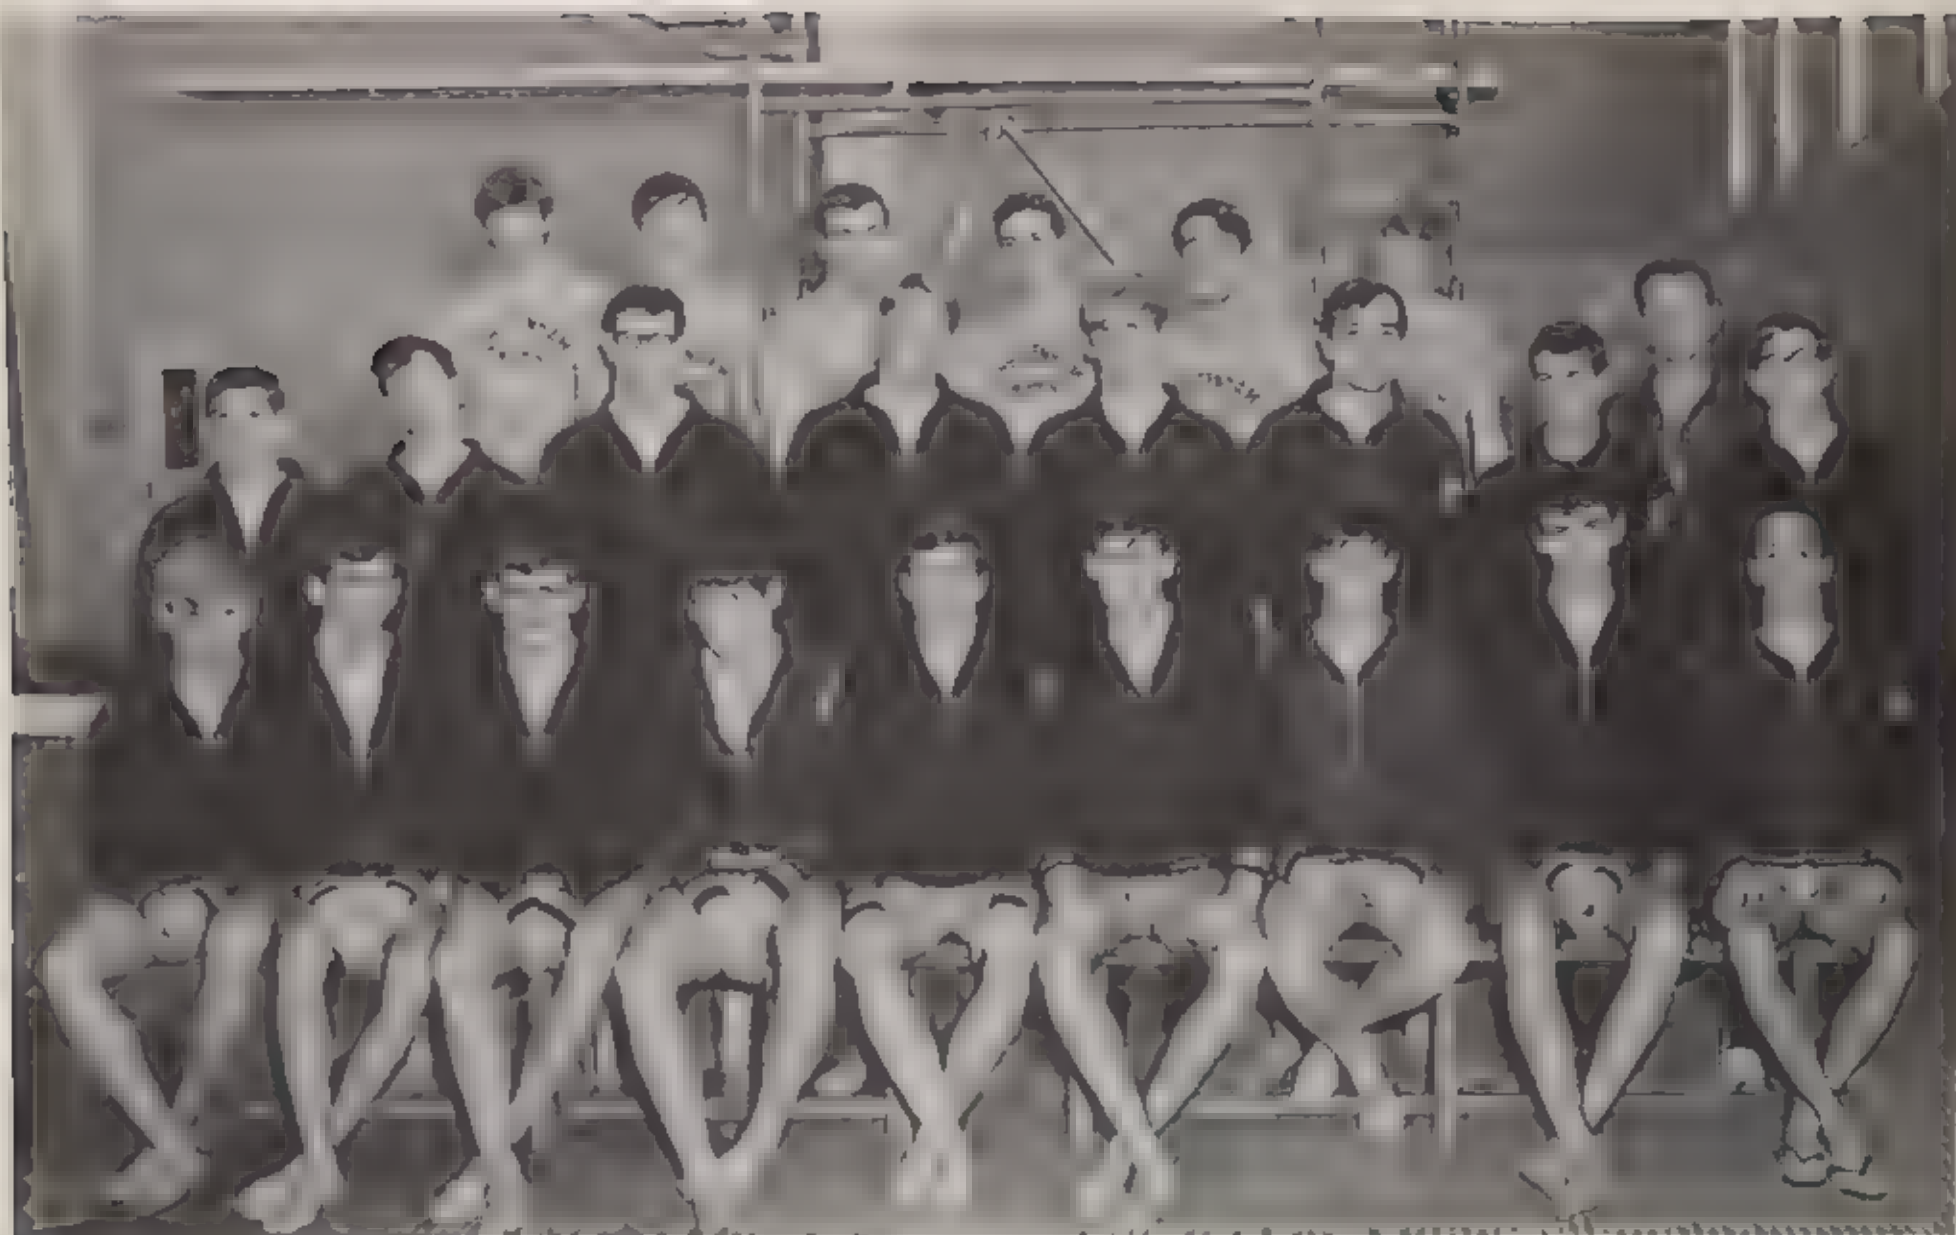

Holden Award winner Jeff Sunshine finds enough daylight to hit another jump shot

"Three taps and it has to go over" Rich Raden and company fight for loose ball

"I don't want to hear it," Coach Paul Westhead admonishes starting force before second half.

Swimming team. Bottom Row: W Lebing, B Porter, D Holmes, D. Kelley, D. Adler, captain, M. Hankin, D Metzendorf, K Winter, F Miller. Second Row: R Raab, S Sundheim, M Rappa-

port F Sturz, G Lebing, R. Ward, T. Hoffman, B Levy. Third Row: H. Raymond, R. Leisner, manager; J. Mack, H Shanis, E Shore, D Sturz, Mr D'Ancona, coach.

Cheltenham mermen wade through rough season

"You know something fellows we should have gone out for basketball," Jim Mack vocalizes his opinions against tortuous swim practices.

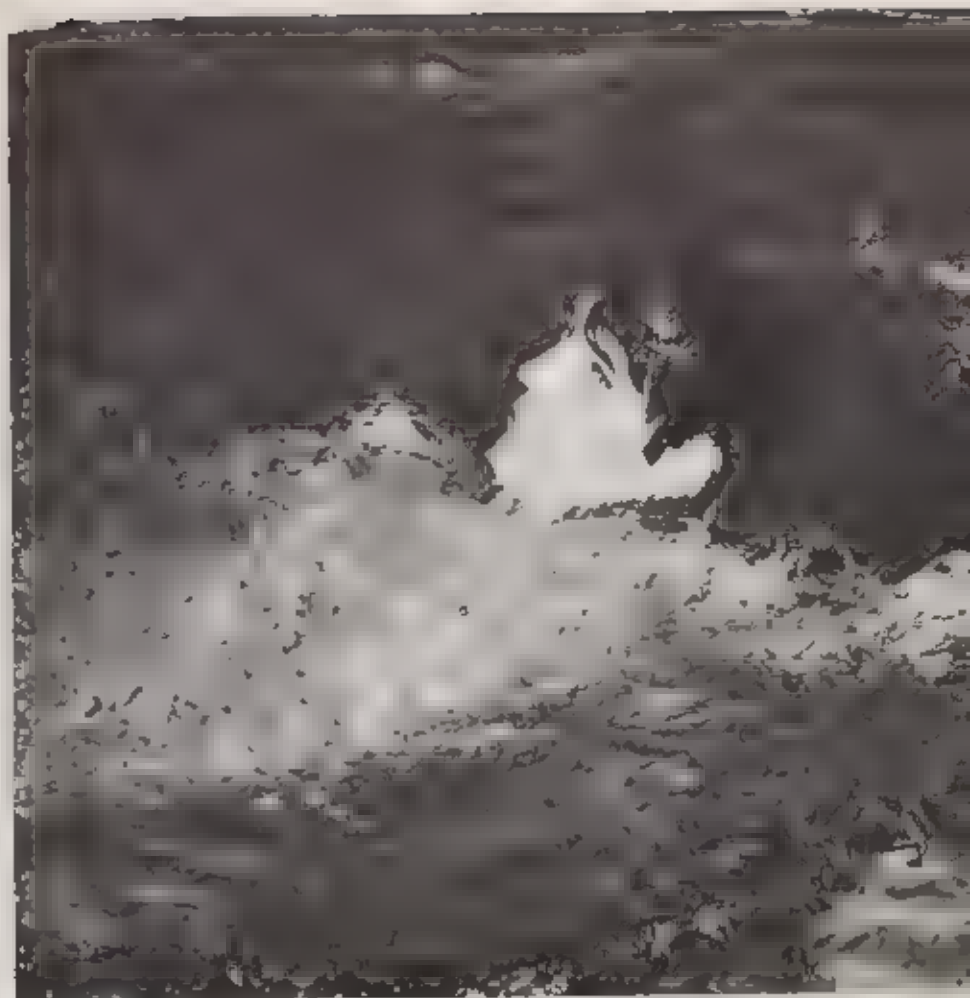

The aquamen of CHS swam against strong opposition and despite their 4-8 record, performed well. Defeated by Coatsville, the Panthers came back with victories over Pennsbury and Harrington. However, the Chelts lost to Plymouth-Whitemarsh, Abington, Upper Merion, and Marple Newton. Swimming back, the Panthers crushed Upped Darby 71-24 and Norristown 68-27. The last two meets with Lower Merion and Haverford were lost 49-46.

Next year, the swimming team will lose captain Doug Adler, recipient of the Holden Award; Mitchell Hankin, backstroke specialist; freestylers Fritz Sturz, Dick Holmes, and Fred Miller; multiple stroke men Whitey Lebing and Jim Mack, and breaststroker Tobe Hoffman. However, the team of 1967-68 shows much promise with returning varsity men Dave Metzendorf, Bill Porter, Marc Pappaport, Ken Winter, and Dave Kelley.

Kelley, who was unbeaten in dual meet competition, placed third in the 400-yard freestyle in the districts. Also participating in the districts were Mitch Hankin in the 100-yard backstroke, Doug Adler, Dick Holmes, Fred Miller and Dave Metzendorf in the 400-yard relay. At the regionals, Dave Kelley placed first in the 400-yard freestyle.

"But Mr. D., he knows how to swim; he just wanted to find out if you could!" Russ Leisner explains to coach D'Ancona that not all people know how to swim.

"Well at least you could have told me I was going in the wrong direction!" Gerald Lebing shows dismay over discouraging news

"Hi!" Dave Metzendorf expresses emotions to numerous spectators during swim meet

Okay, you wise guys, where did you put my trunks?" Bill Porter protests unfair treatment

"And Remember, the winner gets a kiss from Mr. D." Chelt swimmers Dave Kelley, Doug Adler, and Jim Mack take off with a flying start

Panther matmen grab suburban championship

"Who said he was a weak wrestler" Rick Wexler awaits the signal starting his bout.

The 1966-67 wrestling season will long be remembered at Cheltenham, for this was the year the Panthers compiled a 9-0-1 record and captured the Suburban North Wrestling Championship. The Panthers, guided by Coach Steven Saltzman, were impenetrable.

The season opened with a non-league match at Springfield, and the Chelts whipped the Bux-mont League Champions 28-23. At Methacton, the Panthers rolled to an easy 40-20 victory, as they notched seven pins. In the next match, Lower Merion was dumped by the Panthers 34-13. Grant Grabfelder, Jim McGowen, and Len Pelullo scored pins. The Cheltenham grapplers were running at full steam when they plowed over and buried Abington 26-19. Coach Saltzman used excellent strategy in moving Len Pelullo from 165 to 180 pounds where Lenny gained another pin. Upped Dublin was another team that felt the strength of the Panthers as it succumbed 45-9. Pelullo gained his fifth pin in five bouts.

Wrestling Team: **Bottom Row:** M. Gitomer, L. Sichel, P. Wood, P. Malis, R. Flacco, P. Hallinger, B. Greiger. **Second Row:** B. Kamason, C. Goff, C. Dobkin, G. Christian, M. Miller, M. Asher, R. Fried. **Third Row:** Mr. Saltzman, coach; B. Weinstein, R. Wexler, G. Grabfelder, M. Fisher, T. Redding, C. Stamm, J. Goff, B. Dershaw, L. Pelullo, J. Applebaum, J. Hink, Steve Cooper, manager.

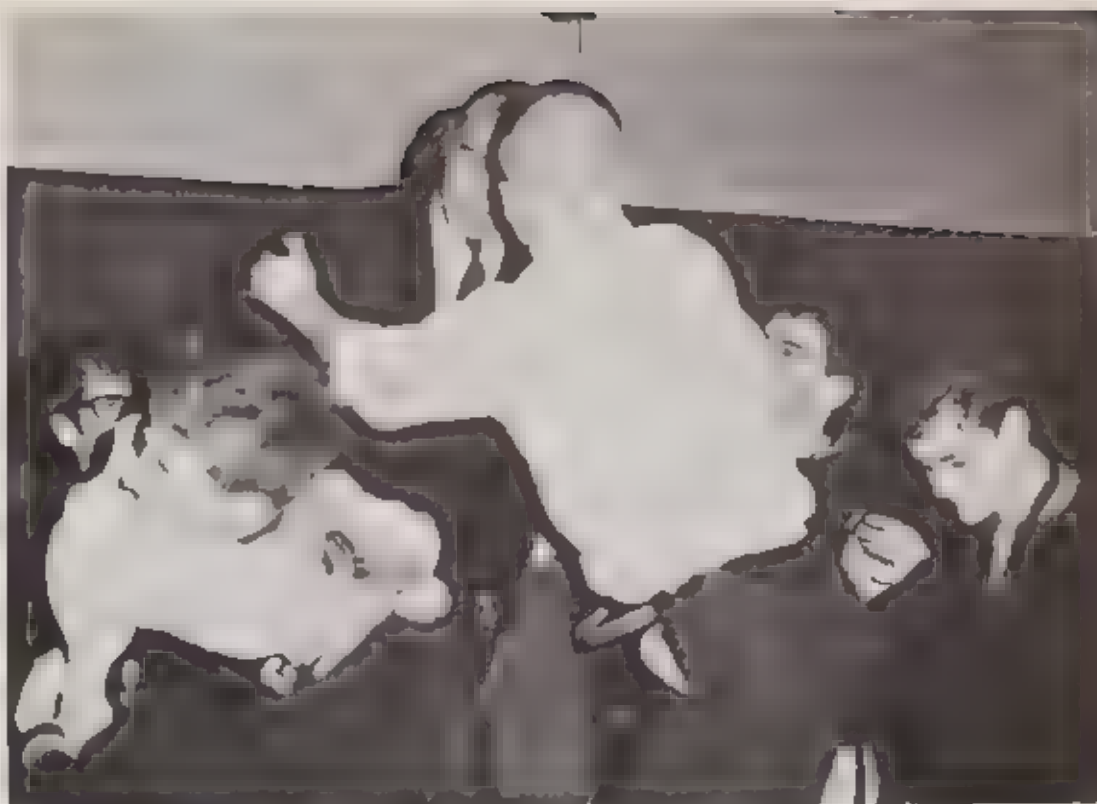

Rick Kropp is overjoyed at seeing the Panthers capture another victory

"No thanks, I can tie my own shoes." Rick Kropp offers aid to undone opponent.

"Congratulations Coach!" Coach Saltzman and his wrestlers are elated over tie with Norristown which clinched league championship.

Jim Goff prepares to flip his opponent back and score a quick pin.

"Gee Whiz! This guy's screaming already and I haven't even touched him." Tom Redding is bewildered by his own strength and his opponent's meekness

'Is this the way you do it or is it done some other way?' No matter which way it is done, Charlie Stamm, senior standout wins again

Panthers rout Upper Merion 31-9

In the next match, Charlie Stamm proved that he is the most improved Panther matman. He gained a crucial 10-4 decision to help the Panthers nip Plymouth Whitemarsh 27-26.

Traveling to Radnor, the Chelts scored a 42-13 victory. Pins were recorded by Benji Weinstein, Larry Sichel, Mitch Weintraub, Grant Grabfelder, Jim Goff, and Len Pulello. The grapplers clinched a tie for the title by routing Upper Merion 31-9. The Chelts won 9 of 12 bouts. Charlie Stamm and Len Pelullo scored pins. It was Pelullo's eighth straight pin. At William Tennent the Panthers gained their twelfth victory in a row over

a two-year period. The Chelts won 32-11 in the preliminary match before the big one. Going into the final match of the season, the Panthers found themselves a half-game ahead of Norristown, the defending champion. Either a victory or a tie would secure the championship. The Chelts jumped to an early 23-0 lead, but the final score was 27-27. Rick Wexler and Mulford Fisher recorded pins as the Panthers captured the Suburban North Wrestling Crown.

Postseason wrestling saw Len Pelullo and Mulford Fisher, Holden Award Winner, capture first place in their weight classes in the sections.

"London Bridges falling down, falling down." Len Pelullo fells another opponent by a pin.

Mitch Weintraub, junior sensation, secures an arm-lock on his way to victory

"Where'd he go?" Bruce Dershaw ties up Lower Merion opponent

John Hink devastates another challenger

"Scratch nearer the ankle." Benjie Weinstem issues orders to an opponent who can do nothing but obey

'You're safe!' Jim Pavlovich exhibits control and skill as umpire

Gymnasts tumble

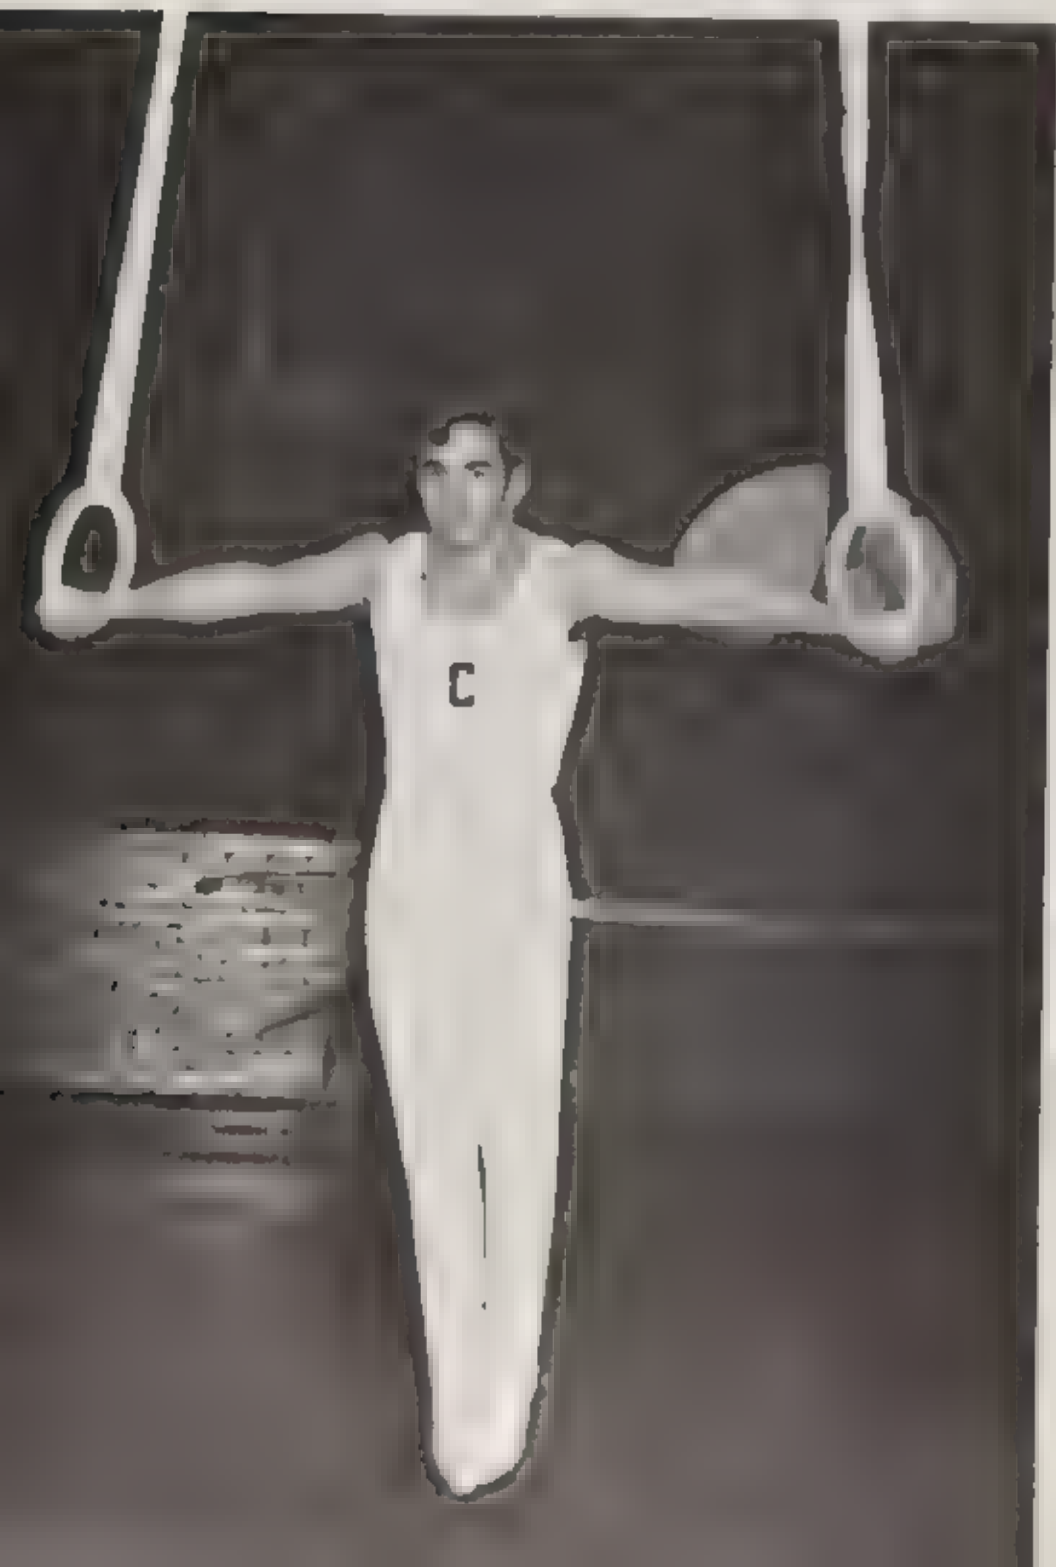

The Gymnastic team now in its second year of league competition, has improved tremendously. Despite only two team victories, individual improvement has highlighted the season.

Jim Pavlovich, a junior tumbler, Al Lecoff, a junior high barman, Jan Kitzen, a senior co-captain working all events, and Neal Little, a senior co-captain working both the rings and parallel bars, all placed highly in the Neshaminy Invitational Meet.

Jim Pavlovich was an exceptional standout, placing fifth in the District championships. Also scoring well for this year's varsity team were junior boys Ken Martin, Bob Lipsey, Nick Lindaberry, Randy McNamee, and Steve Weiss.

The team has a great deal of talent as displayed by its fine showings in the invitational. The season's climax occurred when Jan Kitzen captured the coveted Holden Award

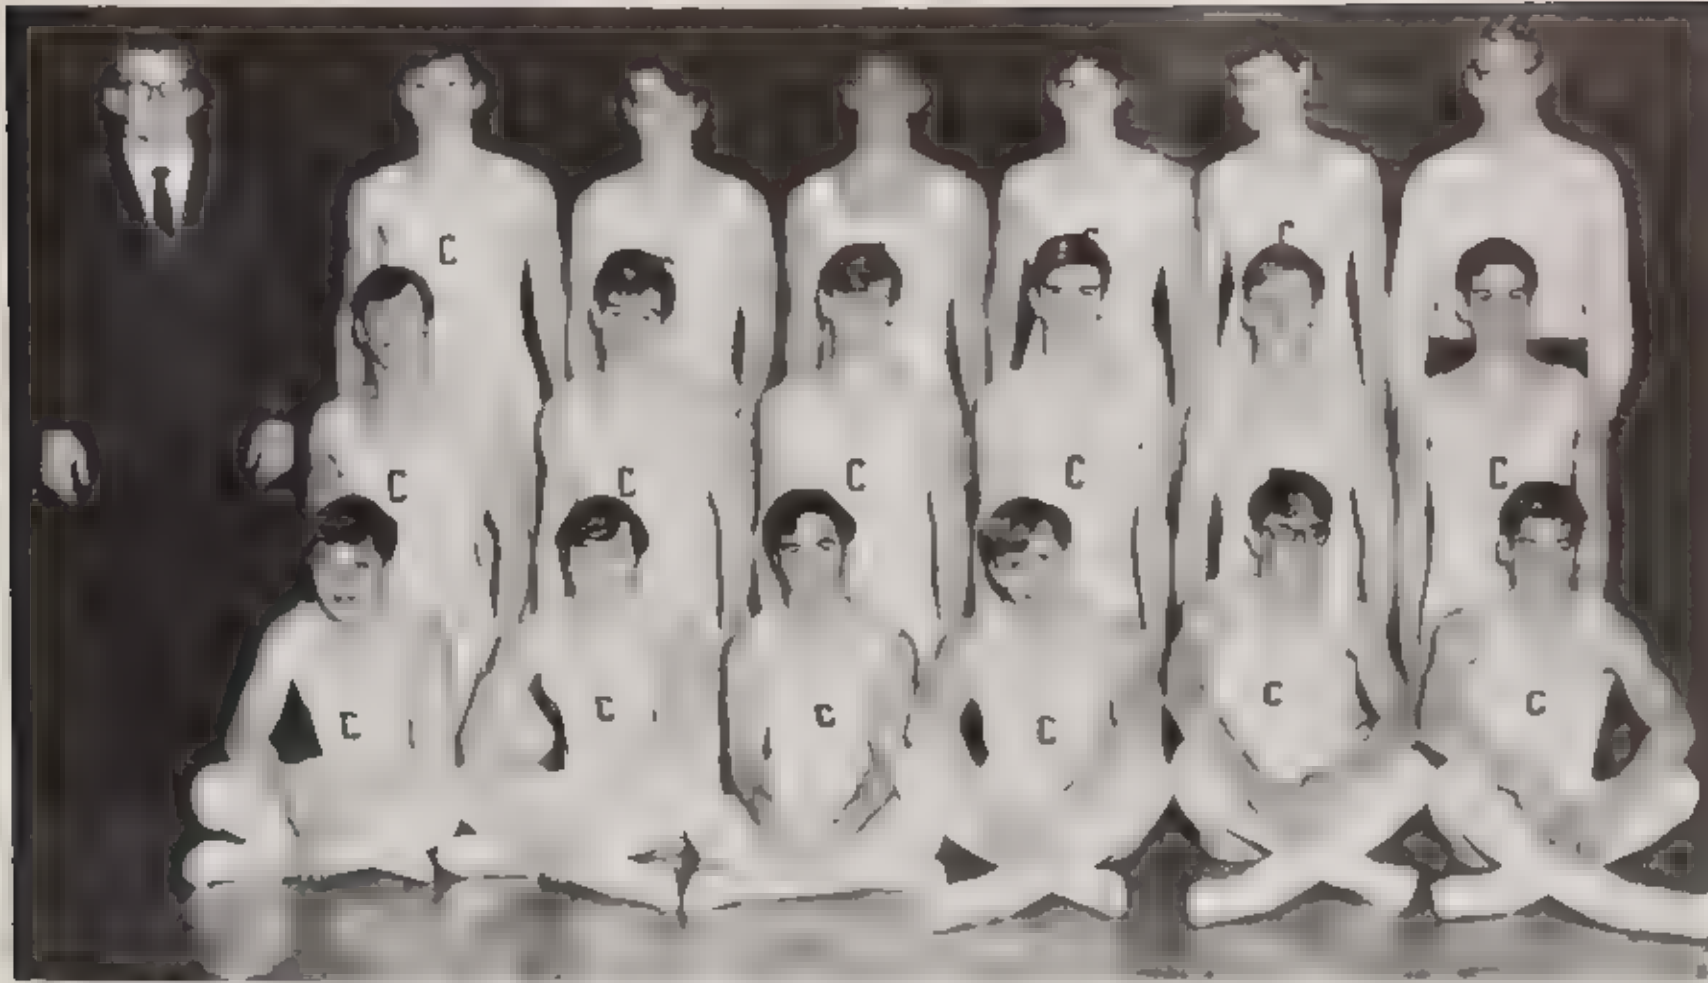

Ken Ulansey, man of steel, executes an iron cross.

'Gosh, when was the last time this floor was cleaned?' Jan Kitzen studies footprints during moment of leisure.

"Whoa boy!" D. Polish gracefully mans the horse

Mermaids go overboard in league competition

The girls' swimming team made a valiant effort to stay afloat during a very competitive season. Despite the fact that they won no victories this year they produced many outstanding individual performances. Senior Sandy Wood led the squad with the breast stroke, while junior Jenny Doolittle placed consistently with freestyle. The team is composed primarily of juniors and sophomores who no doubt benefited much from this year's experience.

Bottom Row: N. Kremens, J. Doolittle, D. Pearlman, S. Wood, D. Reppen, P. Woodford, D. Hopkinson, manager. Second Row: A. Merrill, S. Patterson, J. Fox, W. Ward, B. Dando, R. Meyer, E. Braman, F. Kelly, Miss Reimann. Third Row: J. Cooper, L. Brooks, J. Wieley, L. Walynetz, B. Pollard, P. Worcester, L. Peilcoff, E. Silverberg, P. Marris, manager.

"I've had it about up to here with practice!" Barbara Pollard takes time out to discuss the merits of the scissors kick with Linda Walynetz.

Friedman, S. Butterworth, E. Wilson, C. Alsberg, J. Maimud, M. Pfisterer, E. Ley, S. Balin, J. Lichtenstein, Miss Kramer. Third Row: K. Puschak, L. Kelley, B. Wasserman, L. Palenscar, J. Apfelbaum, L. Goldberg, M. VanHorn, J. Fowler, J. O'Brien, J. Shapiro, E. Wolf, M. Rosenau, Miss Boyd.

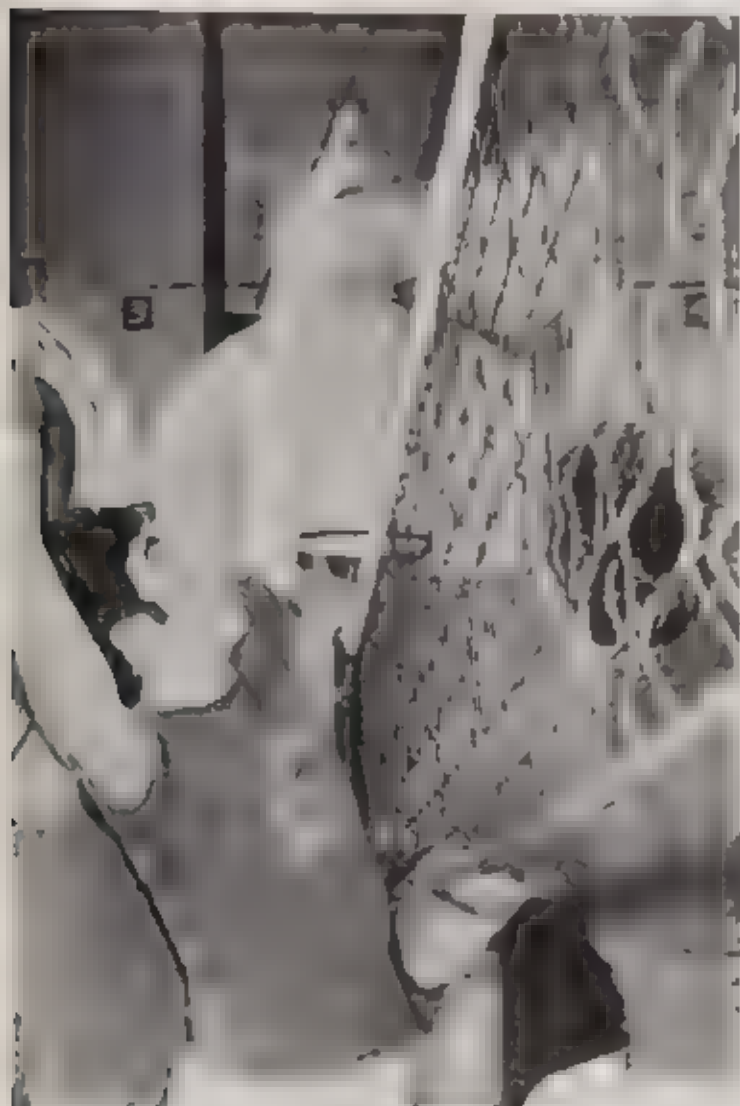

Marion Rosenau gets ready to shoot as Barbara Wolf looks on.

After a slow start, the girls proved they had a lot on the ball as they closed the season with a 33-25 win over Norristown and a 25-14 victory over Methacton. Co-captains Nan Schwartz and Tina Welsh paced the varsity to their rousing finish. Though plagued by snow, illness, and injury, the femmes accomplished a great deal and have exhibited a strong underclass force for next year.

Hoopsters' hurls on rim of success

Andy Schwartz displays her outstanding form.

Netmen defeat defending district champs in bout

This season the Volleyball team secured a place for itself in the category of "best loved" Cheltenham sports. The team played before the largest crowd ever to watch a Cheltenham volleyball match. With the aid of senior standouts Phil Bronstein (captain), Steve Wood, and Mark Fisher, the Chelts were the only team to win a game from Hav-erford this year. The team then went on to defeat Upper Merion twice and to defeat Central Bucks, the defending champions.

This year's bowling team, under the direction of Mr. Daryl Biser, made a respectable showing. The boy's varsity, with a 17-13 record, played third in the league. Soph Skits Soroko had a 168 average and the Rosenfelds, Ed and Barry, both averaged 167

The girls' team was hurt by a lack of participants and Mr. Biser thinks that this explains their subpar 14-17 record

Strikes and spares spur on slingers

Girls' tennis' Bottom Row: L. Goldberg, M. Klein, S. Klein, W. Wallner, R. Steinberg. Second Row: J. Yusem, D. Berinson, D. Lefco, J. Maxmin, J. Harmatz, R. Woldow, Miss Redford, Coach

"Boy, they sure don't make fly swatters like they used to." Senior Jody Maxmin lashes out against a bouncing ball during a victorious match.

Tennis team raises racket

The 1966-67 Girls' Tennis squad presented a wealth of potential dedication, and sportsmanship as they entered competition with nine league matches. Through weeks of serious practice, the girls were prepared for the talented rivals they faced. Senior Denise Berger led the squad along with Debbie Lefco, Jody Maxmin, and Leslie Garson. Wendy Wallner also played outstanding tennis. In recent years the tennis teams have fared extremely well and these girls carried on that fine tradition.

Lacrosse squad hammers at competitors

Lacrosse is a complex game, performed by a squad of eleven players and a goalie. The sport is young at Cheltenham, and has consistently attracted underclassmen who are trained to carry the team by the time they are seniors. This year's squad, led by co-captains Sandy Wood and Dale Hopkinson, fought valiantly, and through practice and inspiring coaching, fared well. The rich underclass team has proven itself a valuable nucleus for future squads.

Sandy Wood and Barb Dando warm up for league competition

CHS Lacrosse team: Bottom Row: D. Hopkinson, B. Dando, M. Van Horn, J. Ward, J. Doolittle, S. Wood, L. Kelley, K. Puschak, J. Fowler, J. Fox, W. Ward. Second Row: E. Friedman, J. Hurwitz, J. Wolf, K. linger, R. Friedman, P. Reinhart, B. Snyder, E. Rosenblatt, A. Dano, K. Martin, B. Schwartz, Mr. Fleegler, Coach.

Racketeers foresee third suburban title

This year the CHS tennis team will be shooting for an unprecedented third straight league championship. The two-time suburban champs are under the leadership of a new coach, Mr. Harvey Fleegler, who has great talent at his disposal. In his third year at first singles is John "Barrel" Shoneman. John has a chance of making the all-state team. After John comes Chip Largman, junior-sensation Harold Gerber, and Paul Solis-Cohen. The doubles are held by three sophomores, Gary Fleet, Randy Rappaport, and Mark Tarlow. The Chelts are certainly the "team to beat" this year and they're proving it. The team won their first three matches against Lower Moreland, William Tennent, and Lincoln.

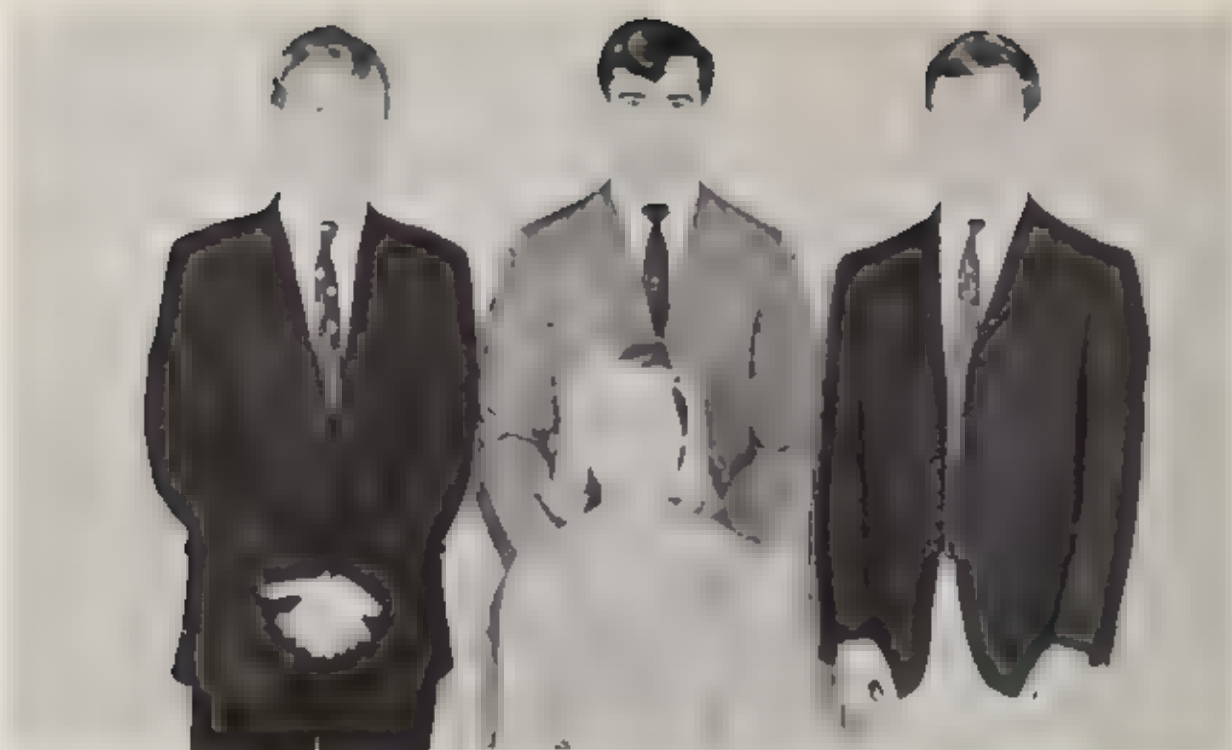

Chip Largman expertly returns a volley on his way to an easy victory

"It's in the air, it's everywhere" John Shoneman, first singles, wonders if it is really there

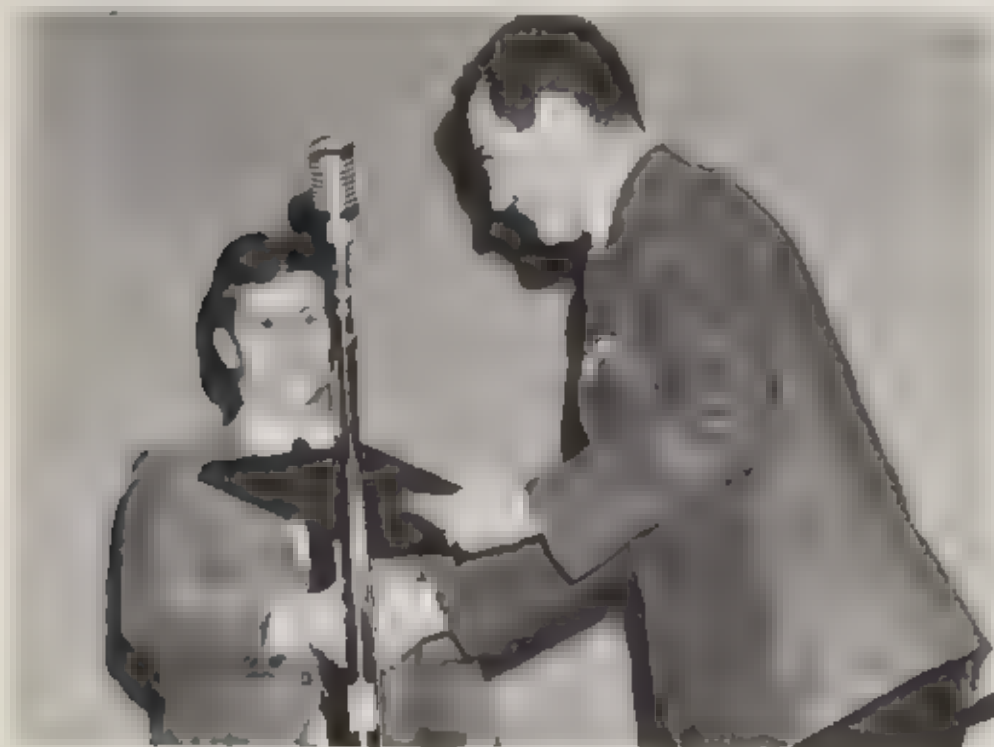

Fall Holden Award Winners

Fall Holden Award Winners: Sandy Wood, Hockey; Frank Staub, Soccer; Russ Alden, Football; Neal Lattle, Cross-country

Cheltenham honors outstanding athletes

Doug Adler is congratulated by Mr. D'Ancona after receiving the Holden Award for swimming

Among the students of the Cheltenham High School's graduating class of 1953, there existed an aspiring young athlete by the name of Jack Holden. Jack, under the guiding arm of Mr. Wilbur Lehman, athletic director, became one of Cheltenham's greatest athletes. He gained recognition while participating in football and wrestling. After graduation, Jack Holden went on to further his education at a Midwestern University. Here, tragedy struck. Young Jack, while playing touch football, was accidentally hit in the chest and suffered a fatal injury. In memory of this fine athlete, CHS awards yearly the Holden Award to that boy or girl who has conducted himself with distinction in each of the major sports.

CHS Golf Team: Bottom Row: Doug Adler, A. Balun, D. Marks, A. Goldman. Second Row: T. Shulman, E. Rosenfeld, J. Schwartz, Mr. Garreth, Coach.

Long drives, straight putts, insure victories

Cheltenham's golf teams have placed first in league competition three times in the past four years, and this year's team doesn't appear to be an exception. Composed of a majority of seniors returning from last season's squad, the boys have molded themselves into a sharp team. The senior boys on the squad are Tom Shulman, second man; Doug Adler, third man; Al Balun, fifth man; and both Ed Rosenfeld and Dave Marks are sharing the sixth spot. Also returning from last year's team are first man Andy Goldman, and fourth man Curt Shalo.

The team got off to a quick start by defeating William Tennent, Upper Dublin and Abington. These victories are proof that this year's team has great potential.

Andy Goldman displays the driving form which has made him a consistent winner.

Tom Shulman makes futile attempt to bury his score card.

"One, two, cha-cha-cha." Fleet-footed Bob Boyle dances across home plate with another Cheltenham run

Because of a large turnover in personnel, this year's baseball team will have big gaps in its starting nine. So far, Coach Mehelich has had trouble fitting the right man in the right position.

The panthers dropped their first two games to Norristown and Radnor by slim margins. In the opener, Gary Brown pitched superbly, but the Chelts were shut out 1-0. Against Radnor, Steve Meyers collected eighteen strikeouts, but the Panthers were nipped 3-1. The senior strength of this ball club consists of Jeff Sunshine, Bob Boyle, Sal Moffo, Steve Syvulak, Lefty Shaw, Bruce Segal, Larry Weiner, Jay Shendrove and Gerry Eisman. Bob Henderson handles the catching chores while Steve Myers, Steve Seeling, and Gary Brown take on the mound duties.

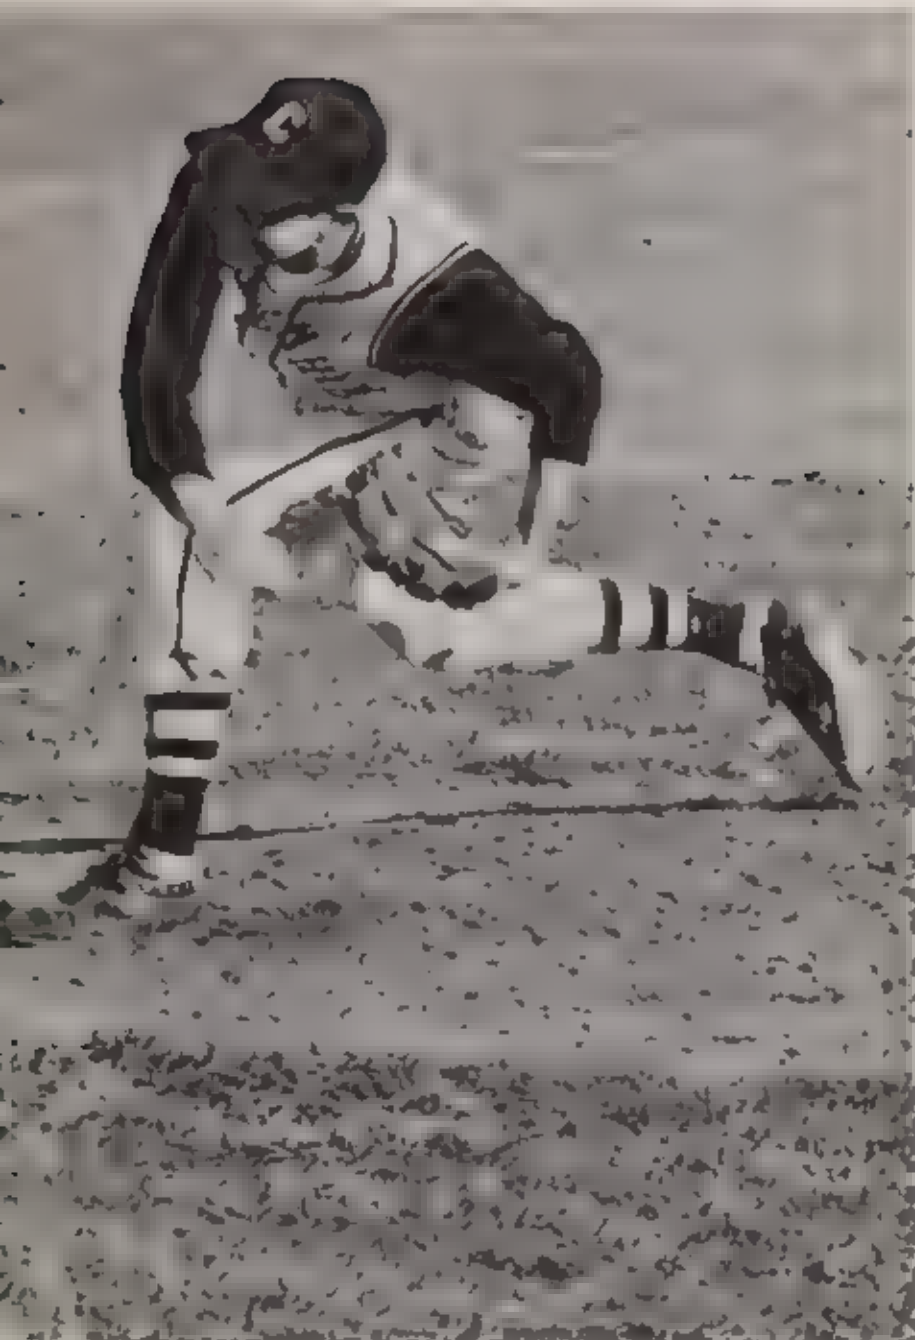

If the hitting can improve while the pitching remains solid, the Chelts may break 500. The prospects for next year's squad are exceptionally bright; for starters, Bill Haff, Bob Dooley, Howard Fischer, and Gary Brown will be returning.

Strong pitching insures pennant aspirations

CHS Baseball team Bottom Row: R. Foulkrod, M. Feinberg, S. Moffo, G. Brown, V. Shaw, B. Schultz, B. Segal, S. Cooper, Manager. Middle Row: J. Shendrov, J. Sunshine, S. Myers, L.

Weiner, B. Haff, E. Matzkin, H. Fischer, Mr. Mehelich, Coach. Top Row: H. Field, Manager; G. Eisman, B. Boyle, B. Henderson, M. Cichetti, R. Dooley, S. Seeling, A. McHugh, Manager

Gary Brown demonstrates the art of pitching

"If we don't win this one, we'll have to pick up the bases after the game pass it on." Bob Henderson releases message to his teammates

Rick Foulkrod clouts one of his many extra-base hits of the

"Here's one without a hole in it." Coach Mehelich finds the proper bat for Howie Fischer

Bill Blum and Larry Cramer dig in for lightning fast take-off

"Ouch, you're squeezing my thumb" Bradford Boneshaft reminds Larry Cramer to release his foot

"This time it better not slip." Whitey Lebing vaults to greater and greater heights

This year's track team primarily consists of juniors. Despite their limited experience, they are quite talented and Coach Hoffman expects a winning year. The leading sprinters are juniors Bill Blum and Benny Dempsey and sophomore Larry Cramer. Four juniors, Wes Beadling, Steve Beadling, Chris Perry and Phil Mirell will carry the long distance load.

Cheltenham should also prove strong in the field events. Junior John Solomon, Tom Reifsnyder and Mark Mann will be our shot putters. Reifsnyder will also hurl the javelin and Solomon will test his talents on the discus. Art Pelberg will perform in the broad jump, Dick Holmes in the high jump, and Jim Pavlovitch in the pole vault.

In their first meet, the Chelts clipped Radnor 74½-60. Junior Chris Perry, Jim Pavlovitch and John Solomon accounted for ⅓ of the team's point total. The rest of the team's meets will no doubt be just as successful.

Thinclads whiz past opponents

"Why didn't I go out for golf?" Colorful Mike Goldman is redder than usual after exhausting race.

"Now this is how you take a pass" Coach Hills shows why he consistently finishes first

"C-H-E-L-T-E-N-H-A-M!" Penny Kohn demonstrates master spelling ability at the mid-game pause

Cheerleaders

Inimitable, intriguing, and almost indefatigable, the 1966-67 cheerleading squad brought a new fervor of spirit to Cheltenham. Although they were most commonly recognized as they jumped up and down at a game, the cheerleaders were also the instigators of the "behind the scenes" spirit movement that manifested itself in numerous slogans, stickers, and large turnouts at all sports events. They created an inspiration both for the teams and their audiences.

Bottom Row: C. Baseman, A. Lieberman, A. Freilick, captain; S. Hersh, B. Weinberg. Second Row: G. Spector, S. Hoover, H. Boonschaft, C. Adler, J. Sauter. P. Kohn. Third Row: C. Shagass.

Student leaders draw blueprints for senior year

Buttresses of a high-flying class are President Dan Seltzer, Vice-President Judy Leventhal, Secretary Nan Schwartz, and Treasurer Rich Baseman.

To create exciting plans and then to translate those plans into equally exciting realities are the major responsibilities of the Senior Administration. The forty senior homeroom representatives, led by President Dan Seltzer, Vice-President Judy Leventhal, Secretary Nan Schwartz, Treasurer Rich Baseman, and Faculty Sponsor Mrs. Twitmyer, meet weekly to coordinate the varied activities of The Class of 1967.

Besides providing opportunities for practice in the responsibilities of leadership, Administration sponsors class projects ranging from the service activities of the Paper Drive and Work Day to the recreation of intramural athletics and the Senior Forum. The traditional Prom and Breakfast place a capstone on an eventful senior year.

This year's Senior Administration has tried to keep the entire class involved in senior activities by frequent votes on policy and by active publicity. It is the support of an interested class behind dedicated leaders that transforms blueprints into the concrete realities of a memorable senior year.

"Now, about the band . . . Sam who?" President Dan Seltzer and class sponsor Mrs. Twitmyer receive suggestions concerning class activities

"Richie, you spent all the money?" Doug Adler, Dan Seltzer, John Specter, and Rich Baseman discuss financial status of senior class treasury

"That'll be thirteen black cows, ten hot dogs and two bicarbonates." Nan Schwartz takes orders from Dan Seltzer, Rich Baseman, Judy Leventhal and Mrs. Twitmyer

"And now young people . . ." Mrs. Twitmyer cheerfully supervises Senior Administration

"Are you sure we're not in the Everglades" Robert Moore, Linda Melz, and Pat Pearson reflect the past and ponder the future.

"Quick, get the Kleenex!" Randy Ward, Bob Foerster, and Warren Verbin blossom into June graduates

Senior girls take the final step toward graduation

"If we work upon marble, it will perish; if on brass, time will efface it; if we
rear temples, they will crumble into dust; but if we work upon immortal minds,
we engrave on these tablets something that will brighten to all eternity."
—Daniel Webster
